Too Close To Almost:

World Too Near Kay Kenyon, 2010-01-28 In *Bright of the Sky* Kay Kenyon introduced a milieu unique in science fiction and fantasy The Entire a five armed radial universe that exists in a dimension without stars and planets and is parallel to our own universe Stretched over The Entire is a lid of plasma called the bright which ebbs and flows bringing day and twilight Under the vast canopy of the bright live many galactic species copied from our own universe Former star pilot Titus Quinn loves The Entire but now he must risk annihilating it by destroying the fortress of Ahnenhoon To sustain a faltering Entire Ahnenhoon s great engine will soon reach through the brane separating the universes and consume our own universe in a concentrated ball of fire Quinn sets off on a journey across The Entire armed with the nan a small ankle bracelet containing nanoscale military technology that can reduce Ahnenhoon and its deadly engine to chaos He must pursue his mission even though his wife is held prisoner in Ahnenhoon and his own daughter has sent the assassin MoTi to hunt him down As he traverses the galactic distances of The Entire he learns more of the secrets of its geography its fragile storm walls its eons long history and the factions that contend for dominance One of these factions is led by his daughter who though young and a slave has at her command a transforming and revolutionary power As Quinn wrestles with looming disaster and approaches the fabled concentric rings of Ahnenhoon s defenses he learns that in the Entire nothing is what it appears Its denizens are all harboring secrets and the greatest of these is the nature of the Entire itself

Very Near to You Avraham Burg, J J Goldberg, 2012 The book is a new interpretation of the weekly torah reading It is written from a world view deeply committed to Judaism which places the responsibility of interpretation and identity on each one of us The Torah is not in heaven but in the heart and mouth of you and me to study it and to live by it Through this book the author tries to involve the reader in the language of the five books of Moses that has been present in our lives for thousands of years It s a language which is human universal moral historical and national My interpretation is one of many and I try to invite the reader or student to argue or to agree to add or to subtract from my

Bowman,2013-06-19 A military history of the British Army's 1st Airborne Division at Arnhem in the Netherlands during World War II This is the second volume in a meticulously researched four part series that provides a comprehensive insight into the aerial exploits at Operation Market Garden in September 1944 In an interesting method of presenting the information the author's arrangement of British American Dutch and German personal narrative interspersed with factual material offers a more personalised view of the war through the eyes of the hard pressed Allied airborne troops who were actually there in the thick of the action They take you steadily through the bitter house to house fighting in Eindhoven Nijmegen and Arnhem and the fanatical attempts to keep open the narrow road to permit XXX Corps to reach and relieve Colonel John Frost's men outnumbered and outgunned at Arnhem Bridge They reveal the frustration and bitter disappointment in the battles of the drop zones the bloody fight for the bridges across the Rhine and the almost suicidal second and third lifts to resupply the troops holding on precariously fighting desperately tenaciously and bravely to prevent their positions being overrun in the face of overwhelming enemy superiority Stories of individual heroism act to humanize this period of wartime history which is often reduced to mere facts Timelines detail the day to day events happening in all areas of the battle both on the ground and in the air and also add weight to the story in hand whilst carefully selected archive images work to supplement the text perfectly **Description of Egypt** Edward William Lane,2000 The launching of this hitherto unpublished book by the great nineteenth century British traveler Edward William Lane 1801-76 a name known to almost everyone in all the many fields of Middle East studies is a major publishing event Lane was the author of a number of highly influential works An Account of the Manners and Customs of the Modern Egyptians 1836 his translation of The Thousand and One Nights 1839-41 Selections from the Kur'an 1843 and the Arabic English Lexicon 1863-93 Yet one of his greatest works was never published after years of labor and despite an enthusiastic reception by the publishing firm of John Murray in 1831 publication of his first book Description of Egypt was delayed and eventually dropped mainly for financial reasons The manuscript was sold to the British Library by Lane's widow in 1891 and has only now been salvaged for publication by Dr Jason Thompson nearly 170 years after its completion This enormously important book which takes the form of a journey through Egypt from north to south with descriptions of all the ancient monuments and contemporary life that Lane explored along the way will be of immense interest to both ancient and modern historians of Egypt and will become an essential companion to his Manners and Customs Jason Thompson's exact and dedicated edition deserves much praise Astene Newsletter June 2002 Thompson a historian at AUC has done signal service in taking a manuscript dating from 1831 and preparing it for publication so many years later AUC Press deserves praise for
