Sustainable Development Goals for Society Vol. 2 Godwell Nhamo, David Chikodzi, Kaitano Dube, 2021-06-26 This book profiles various cases that are emerging in addressing global challenges in the context of SDGs for society in the era of climate change and covers case studies of projects being undertaken to tackle biodiversity food security climate change energy and water security The book is written by 37 authors and will appeal to various stakeholders including academics working within the identified thematic areas policy planners development agencies governments and United Nations agencies The adoption of

the Sustainable Development Goals SDGs in 2015 ushered a new era in the global development agenda as the world transitioned from the Millennium Development Goals MDGs. The new era of SDGs that are all inclusive unlike the MDGs with the focus now being on ensuring human success that is predicated on environmental protection. The year 2020 marked five years post the adoption of the SDGs with increased calls for stock taking of progress made amid strong calls for a decade of action to accelerate the delivery of the SDGs by 2030. These calls have been louder now given the impact of the COVID 19 pandemic which reset the global economy and increased intensity of extreme weather events across the world. Since climate change has emerged as one of the biggest threats to the achievement of the SDGs there has been growing concerns on its impact on biodiversity loss and the extinction of some species. There are also concerns regarding increased food insecurity at the household level in some parts of the world particularly in Asia and Africa. With the demand for climate change action on the increase there have also been growing calls for the big carbon emitters to drastically cut their emissions and invest in clean energy to save the planet by following development pathways making emissions stay under the 1.5°C increase in temperature.

A Handbook on Legal Languages and the Quest for Linguistic Equality in South Africa and Beyond Zakeera Docrat, Russell H Kaschula, Monwabisi K Ralarala, 2021-06-02. A Handbook on Legal Languages and the Quest for Linguistic Equality in South Africa and Beyond is an interdisciplinary publication located in the discipline of forensic linguistics, language and law. This handbook includes varying comparative African and global case studies on the use of languages in courtroom discourse and higher education institutions: Kenya, Morocco, Nigeria, Australia, Belgium, Canada, and India. These African and global case studies form the backdrop for the critique of the monolingual English language of record policy for South African courts, the core of this handbook discussed in relation to case law and the beleaguered legal interpretation profession. This handbook argues that linguistic transformation and decolonisation of South Africa's legal and higher education systems needs to be undertaken where legal practitioners are linguistically equipped to litigate in a bilingual multilingual courtroom that enables access to justice for the majority of African language speaking litigants enforcing their constitutional language rights.

Global Perspectives on Decolonizing Postgraduate Education Gumbo, Mishack Thiza, Gaotlhogwe, Michael, Pedzisai, Constantino, Jojo, Zingiswa Mybert Monica, Knaus, Christopher B., 2024-05-13. A deep seated issue persists

in postgraduate education one that threatens the relevance of academia in our diverse and evolving world. The problem at hand is the Western-centric nature of postgraduate education where research paradigms, methodologies, and theoretical frameworks overwhelmingly reflect a Western worldview. This rigid adherence to Western ideologies has left indigenous communities on the periphery of academic discourse, denying them the opportunity to engage with their knowledge systems and practices. Despite the richness and prevalence of indigenous knowledge, the existing educational structure remains a barrier to their inclusion. This disconnect is not only an academic concern but also a societal one as it hinders sustainable development and stifles the voices of indigenous scholars and students. *Global Perspectives on Decolonizing Postgraduate Education* serves as a compelling solution to the problem at hand. It offers a comprehensive roadmap to decolonize postgraduate education, infusing it with indigenous approaches, paradigms, theories, and methods. Through critical examination and practical strategies, this book empowers academics, curriculum designers, and postgraduate students to embark on a transformative journey.

[Bioactive Agents for Functionalization of Biomaterials for Precise Tissue Engineering](#) Gang Wu, Rui Guo, Jenneke Klein-Nulend, Kaili Lin, 2023-02-28. [Utilisation of South African Research on Higher Education](#) Jan Botha, Gabriele Vilyte, 2021-10-26. The relationship between research on the one hand and policy practice on the other hand is complicated, and collaboration between scholars in research on higher education, RHE, and institutional research, IR, practitioners is often lacking. This book marks a collaborative effort of a diverse range of South African RHE and IR scholars and asks the overarching questions: What do we know about the utilisation of South African research on higher education, SARHE, and its subset of research known as Institutional Research? How and by whom is this research used? The book begins by looking at the historical underpinnings of SARHE and delineating the shape and size of this body of research. This is followed by a series of case studies on South African Higher Education institutions and governmental bodies investigating how, when, and by whom research on higher education and institutional research is used in the decision-making of these organisations. This book is the first of its kind in South Africa and sets out to lay the groundwork for further research into the use, uptake, and utilisation of RHE and IR in this country.
