In *Infertility in a Crowded Country*, Holly Donahue Singh draws on interviews, observation and autoethnographic perspectives in local communities and Lucknow's infertility clinics to examine access to technology and treatments and to explore how pop culture shapes the reproductive paths of women and their supporters through clinical spaces, health camps, religious sites and adoption agencies. Donahue Singh finds that women are willing to transgress social and religious boundaries to seek healing. By focusing on interpersonal connections, *Infertility in a Crowded Country* provides a fascinating starting point for discussions of family, kinship and gender, the global politics of reproduction and reproductive technologies and ideologies and social practices around creating families.
