Successful Personal Statements to Get You into a Top University Warren Zhang, Hemant Mohapatra, 2014-02-20 This book

will help aspiring undergraduates through the competitive admissions process for some of the world's top universities. It will help prospective candidates answer a very specific question: what makes a successful personal statement? Using a collection of real-life personal statements from students recently accepted into Cambridge University across all subjects, the authors provide a behind-the-scenes look into what it takes to be admitted into a top academic institution. The result is a book that offers a rare insight into the often opaque and complex thought process that goes into accepting or rejecting a candidate and provides a benchmark for all students looking to study at top universities around the world.

Overview and Inventory of State Requirements for School Coursework and Attendance Elliott A. Medrich, 1992 The substance and impact of state-level reforms related to student standards are presented by 1 providing information on the current state of educational reforms aimed at raising student standards, 2 summarizing research designed to identify linkages between higher standards and student outcomes, 3 exploring the strength of relationships between higher standards and student outcomes, 4 examining trends among indicators associated with higher student standards, and 5 discussing data and methods available to

those concerned with the relationship of higher educational standards to student outcomes The first of four chapters briefly describes the range of state initiatives designed to achieve higher student standards and the problems associated with assessing their impacts as well as the data available for examining student outcomes Chapter 2 discusses the great variety of reform activities that have occurred at the state level between 1983 and 1990 and places them in a historical context Chapter 3 looks at research on trends in student outcomes and linkages to school reform such as student course taking patterns the proportion of school time devoted to academic subjects student achievement and high school completion rates The last chapter discusses issues associated with studying the impact of state reforms and suggests some analytical strategies that might be used to describe linkages between reforms and student outcomes Three appendixes provide the following information 1 minimum high school graduation requirements for standard diplomas 1980 and 1990 2 an overview of researching reform and student outcomes using selected databases and 3 standard error tables 53 references MLF
