

AMERICAN GOVERNMENT FOUNDATIONS BUNDLE

COMPARING THE IDEAS OF JOHN LOCKE AND THOMAS HOBBES

Both John Locke and Thomas Hobbes, some of the country's leading philosophers, often find a way to support the idea of the social contract. Hobbes, however, believed that the state of nature was a state of war, and that the only way to escape it was by entering into a social contract with a sovereign power. Locke, on the other hand, believed that the state of nature was a state of peace, and that the only way to escape it was by entering into a social contract with a government.

Locke's Social Contract

Locke's social contract is based on the idea of natural rights. He believes that every person has the right to life, liberty, and property. These rights are not given by the government, but are inherent in every person. The purpose of the government is to protect these rights. If the government fails to do so, the people have the right to overthrow it.

Hobbes' Social Contract

Hobbes' social contract is based on the idea of the state of nature. He believes that in the state of nature, every person is in a constant state of war with every other person. This is because there is no common power to keep them in awe. The only way to escape this state of war is by entering into a social contract with a sovereign power. This sovereign power is absolute and has the right to make and enforce laws.

Locke vs. Hobbes

Both Locke and Hobbes agree on the importance of the social contract. However, they differ on the state of nature and the role of the government. Locke believes in natural rights and a limited government, while Hobbes believes in a state of war and an absolute sovereign.

NEW IDEAS INFLUENCE

Many of the ideas of the Enlightenment were influenced by the work of John Locke and Thomas Hobbes. Their theories of the social contract and natural rights were widely read and discussed. These ideas helped to shape the thinking of the American Founding Fathers and the French Revolutionaries.

John Locke's Common Sense

John Locke was an English philosopher, physician, and scientist. He is best known for his work on the philosophy of mind and his theory of knowledge. Locke's most famous work is "An Essay Concerning Human Understanding," which was published in 1689. In this work, Locke argued that the mind is a blank slate at birth and that all knowledge is derived from experience. His ideas about the rights of the individual and the role of government were central to the thinking of the Founding Fathers. Locke's theory of knowledge was also influential in the development of psychology and education.

Locke was a member of the Royal Society and was elected to the office of President of the Society in 1689. He was also a member of the Royal Society of Medicine and was elected to the office of President of the Society in 1704. Locke was a close friend of Isaac Newton and was involved in the development of Newton's theory of gravity.
