Inman, 2014-12-03 For the few hundred television viewers in 1946 a special treat on the broadcast schedule was the variety show called Hour Glass. It was the first TV program to go beyond talking heads, cooking demonstrations and sporting events featuring instead dancers, comics, singers and long commercials for its sponsor Chase and Sanborn coffee. Within two years another variety show, Texaco Star Theatre, became the first true television hit and would be credited with the sales of thousands of television sets. The variety show formula was a staple of television in its first 30 years in part because it lent itself to a medium where everything had to be live and preferably inside a studio. Most of the early television stars including Jackie Gleason, Milton Berle, Sid Caesar, Ed Sullivan, Red Skelton, Dinah Shore and Arthur Godfrey rose to prominence through weekly variety shows. In the 1960s major stars such as Jerry Lewis, Dean Martin, Judy Garland and Danny Kaye were hosting variety shows. By the 1970s the format was giving way to sitcoms and dramas but pop music stars Sonny and Cher, Tony Orlando and Dawn and Donny and Marie Osmond hosted some of the last of the species. This book details 57 variety shows from the 1940s through the 1990s. A history of each show is first provided followed by a brief look at each episode. Air date, guest stars, sketches performed and a listing of songs featured are included **FCC Record** United States. Federal Communications Commission, 2013 Censored 2003 Peter Phillips, Project Censored, 2011-01-04 The yearly volumes of Censored in continuous publication since 1976 and since 1995 available through Seven Stories Press is dedicated to the stories that ought to be top features on the nightly news but that are missing because of media bias and self-censorship. The top stories are listed democratically in order of importance according to students, faculty and a national panel of judges. Each of the top stories is presented at length alongside updates from the investigative reporters who broke the stories **TV Guide** Stephen F. Hofer, 2006 This book looks at the origins and growth of television

Hamilton, 2021-04-13 If it bleeds it leads The phrase captures television news directors' famed preference for opening newscasts with the most violent stories they can find And what is true for news is often true for entertainment programming where violence is used as a product to attract both viewers and sponsors In this book James Hamilton presents the first major theoretical and empirical examination of the market for television violence Hamilton approaches television violence in the same way that other economists approach the problem of pollution that is as an example of market failure He argues that television violence like pollution generates negative externalities defined as costs borne by others than those involved in the production activity Broadcasters seeking to attract viewers may not fully bear the costs to society of their violent programming if those costs include such factors as increased levels of aggression and crime in society Hamilton goes on to say that the comparison to pollution remains relevant when considering how to deal with the problem Approaches devised to control violent programming such as restricting it to certain times and rating programs according to the violence they contain have parallels in zoning and education policies designed to protect the environment Hamilton examines in detail the microstructure of incentives that operate at every level of television broadcasting from programming and advertising to viewer behavior so that remedies can be devised to reduce violent programming without restricting broadcasters' right to compete *Mobile TV* Amitabh Kumar, 2007-03-14 An in depth guide to the new world of Mobile TV multimedia networks and applications *Videoland* Daniel Herbert, 2014-01-24 Videoland offers a comprehensive view of the tangible phase of consumer video when Americans largely accessed movies as material commodities at video rental stores Video stores served as a vital locus of movie culture from the early 1980s until the early 2000s changing the way Americans socialized around movies and collectively made movies meaningful When films became tangible as magnetic tapes and plastic discs movie culture flowed out from the theater and the living room entered the public retail space and became conflated with shopping and salesmanship In this process video stores served as a crucial embodiment of movie culture's historical move toward increased flexibility adaptability and customization In addition to charting the historical rise and fall of the rental industry Herbert explores the architectural design of video stores the social dynamics of retail encounters the video distribution industry the proliferation of video recommendation guides and the often surprising persistence of the video store as an adaptable social space of consumer culture Drawing on ethnographic fieldwork cultural geography and archival research Videoland provides a wide ranging exploration of the pivotal role video stores played in the history of motion pictures and is a must read for students and scholars of media history *Everybody Curses, I Swear!* Carrie Keagan, Dibs Baer, 2017-01-10 Carrie Keagan's naughty interviews with Hollywood's elite are the stuff of legend earning her the nickname Barbara Walters

moral becoming demonstrate how television during these eras took advantage of new technologies to become more film like in both production quality and content The increased depth of characterization and explosion of content across streaming and broadcast channels gave viewers a diversity of worlds and moral values to explore The possibility of finding a moral in the stories told on popular shows such as The Sopranos Breaking Bad The Wire and The Good Place as well as lesser known shows such as Letterkenny and The Unicorn are explored in a way that centers television viewing as a site for moral identity formation

Free Culture Lawrence Lessig, 2004 From the most important thinker on intellectual property in the Internet era The New Yorker a landmark manifesto about the genuine closing of the American mind Lawrence Lessig could be called a cultural environmentalist One of America's most original and influential public intellectuals his focus is the social dimension of creativity how creative work builds on the past and how society encourages or inhibits that building with laws and technologies In his two previous books Code and The Future of Ideas Lessig concentrated on the destruction of much of the original promise of the Internet Now in Free Culture he widens his focus to consider the diminishment of the larger public domain of ideas In this powerful wake up call he shows how short sighted interests blind to the long term damage they're inflicting are poisoning the ecosystem that fosters innovation All creative works books movies records software and so on are a compromise between what can be imagined and what is possible technologically and legally For more than two hundred years laws in America have sought a balance between rewarding creativity and allowing the borrowing from which new creativity springs The original term of copyright set by the Constitution in 1787 was seventeen years Now it is closer to two hundred Thomas Jefferson considered protecting the public against overly long monopolies on creative works an essential government role What did he know that we've forgotten Lawrence Lessig shows us that while new technologies always lead to new laws never before have the big cultural monopolists used the fear created by new technologies specifically the Internet to shrink the public domain of ideas even as the same corporations use the same technologies to control more and more what we can and can't do with culture As more and more culture becomes digitized more and more becomes controllable even as laws are being toughened at the behest of the big media groups What's at stake is our freedom freedom to create freedom to build and ultimately freedom to imagine

know that the real genius behind the show was Larry David Rich beyond his wildest dreams David still had something to prove and some television boundaries to push And so he created Curb Your Enthusiasm the improvised comedy that cast aside political correctness and made for hilarious cringeworthy TV a show that dared to relive the disastrous Seinfeld finale and turn it into a triumph This second fully updated edition of Pretty Pretty Pretty Good offers a complete episode by episode guide to the series and recounts David s early struggle to succeed in television and movies the creation and development of his hit sitcoms and his later success starring in the HBO film Clear History and the Broadway hit Fish in the Dark It also explores Larry s on and offscreen relationships with famous pals like Richard Lewis Ted Danson and Jerry Jason Julia and Michael Filled with candor and humor David himself would respect Pretty Pretty Pretty Good is an essential companion to a comedic force
