System Admin Guide

Olaf Kirch, Terry Dawson

System Admin Guide:

The Linux System Administrator's Guide Lars Wirzenius, Joanna Oja, Stephen Stafford, Alex Weeks, 2007-06-03 The Linux System Administrator's Guide describes the system administration aspects of using Linux. It is intended for people who know next to nothing about system administration, those saying what is it but who have already mastered at least the basics of normal usage. This manual doesn't tell you how to install Linux; that is described in the Installation and Getting Started document. See below for more information about Linux manuals. System administration covers all the things that you have to do to keep a computer system in usable order. It includes things like backing up files and restoring them if necessary, installing new programs, creating accounts for users and deleting them when no longer needed, making certain that the file system is not corrupted, and so on. The structure of this manual is such that many of the chapters should be usable independently, so if you need information about backups, for example, you can read just that chapter.

[Digital UNIX System Administrator's Guide](#) Matthew Cheek, 1998-12-21 Addressing Digital UNIX system administration from an experienced administrator's point of view, this book walks readers through the initial system installation and is a guide through the main points of administration. It includes appendices that list URLs of valuable resources on the Web and detail useful public domain utilities and where to get them.

The Ultimate Windows Server 2003 System Administrator's Guide G. Robert Williams, Mark Walla, 2003 Not only explains the new features of Windows NET Server 2003 but also provides continued support for Windows 2000 administration. Covers changes in security, Active Directory, Microsoft Management Console, and integration with the .NET Framework among many others. Changes Windows NET Server 2003 is the first Microsoft product that is innately affected by the company's recent Trustworthy Computing initiative. If this is successful, this will be the most stable, reliable, and dependable server OS that Microsoft has ever released. It will also feature an integrated environment with the .NET Framework and the Common Language Runtime. The Ultimate Windows NET Server 2003 System Administrator's Guide is an essential resource for planning, deploying, and administering a Windows NET enterprise system. The authors draw on years of experience designing and administering Windows NT and UNIX systems in order to guide you through the varied tasks involved in real-world system administration. There are detailed discussions of key Windows NET Server administrative functions and descriptions of many advanced tools and optional components. In addition, the authors have included a comprehensive and convenient command reference.

[Inside Active Directory](#) Sakari Kouti, Mika Seitsonen, 2002 Inequality in Education: Comparative and International Perspectives is a compilation of conceptual chapters and national case studies that includes a series of methods for measuring education inequalities. The book provides up-to-date scholarly research on global trends in the distribution of formal schooling in national populations. It also offers a strategic comparative and international education policy statement on recent shifts in education inequality and new approaches to explore, develop, and improve comparative education and policy research globally. Contributing authors examine how

education as a process interacts with government finance policy to form patterns of access to education services In addition to case perspectives from 18 countries across six geographic regions the volume includes six conceptual chapters on topics that influence education inequality such as gender disability language and economics and a summary chapter that presents new evidence on the pernicious consequences of inequality in the distribution of education The book offers 1 a better and more holistic understanding of ways to measure education inequalities and 2 strategies for facing the challenge of inequality in education in the processes of policy formation planning and implementation at the local regional national and global levels
