popular culture Covering issues including business development tourism the Thai movie industry and the war on terror the book argues that globalization as it relates to media can be patterned on Thai experiences **Thailand** Charnvit Kasetsiri, 2022-04-29 As a historian Charnvit Kasetsiri is not satisfied simply to have found an instructive angle from which to explore the mysteries in a modern experimental monarchy His keen sense of time has filled his narrative with insights that only a few people could have identified To me that is a mark of one with a fine sense of what the past can mean I thank him for the chance to see this mature and thoughtful Charnvit at work and commend this book to everyone who wants to understand Thailand better Wang Gungwu National University of Singapore Charnvit makes clear in the final pages of Thailand A Struggle for the Nation that he is not very sanguine about the country's future During Thailand's democratic spring in 1974 the Thai constitution was changed to allow female succession This apparent loosening of male prerogative had no effect on the reign change in 2016 when the designated male heir Prince Vajiralongkorn succeeded without challenge to become the tenth Bangkok king Communism long gone as the spectre that once haunted Thailand's political order has been replaced by another The spectre now haunting Thailand is authoritarianism Craig J Reynolds Australian National University

Heritage in Action Helaine Silverman, Emma Waterton, Steve Watson, 2016-11-10 In this textbook we see heritage in action in indigenous and vernacular communities in urban development and regeneration schemes in expressions of community in acts of nostalgia and memorialization and counteracts of forgetting in museums and other spaces of representation in tourism in the offices of those making public policy and in the politics of identity and claims toward cultural property Whether renowned or local tangible or intangible the entire heritage enterprise at whatever scale is by now inextricably embedded in value The global context requires a sanguine approach to heritage in which the so called critical stance is not just theorized in a rarefied sphere of scholarly lexical gymnastics but practically engaged and seen to be doing things in the world **Luang Wichit Wathakan and the Creation of a Thai Identity** Scot Barmé, 1993 This work presents the first English language account of the role of the important thinker writer and politician Luang Wichit Wathakan in the development of state nationalism during the period of political upheaval and conflict immediately following the overthrow of the absolute monarchy in 1932 **The Whole World Was Watching** Robert Edelman, Christopher Young, 2019-12-10 In the Cold War era the confrontation between capitalism and communism played out not only in military diplomatic and political contexts but also in the realm of culture and perhaps nowhere more so than the cultural phenomenon of sports where the symbolic capital of athletic endeavor held up a mirror to the global contest for the sympathies of citizens worldwide The Whole World Was Watching examines Cold War rivalries through the lens of sporting activities and competitions across Europe Asia Africa Latin America and the U S The essays in this volume consider sport as a vital sphere for understanding the complex geopolitics and cultural politics of the time not just in terms of commerce and celebrity but also with respect to shifting notions of race class and gender Including contributions from an international lineup of

historians this volume suggests that the analysis of sport provides a valuable lens for understanding both how individuals experienced the Cold War in their daily lives and how sports culture in turn influenced politics and diplomatic relations

Contesting Visions of the Lao Past Christopher E. Goscha, Søren Ivarsson, 2003 Laos's emergence as a modern nation state in the 20th century owed much to a complex interplay of internal and external forces Arguing that the historiography of Laos needs to be understood in this wider context this study considers how the Lao have written their own nationalist and revolutionary history on the inside while others the French Vietnamese and Thais have attempted to write the history of Laos from the outside for their own political ends As nationalist historiography like the formation of the nation state does not emerge within a nationalist vacuum but rather is created and contested from inside and out this incisive volume's approach has applications and implications far beyond Laos

Embodied Nation Simon Creak, 2017-08-31 This strikingly original book examines how sport and ideas of physicality have shaped the politics and culture of modern Laos Viewing the country s extraordinary transitions from French colonialism to royalist nationalism to revolutionary socialism to the modern development state through the lens of physical culture Simon Creak s lively and incisive narrative illuminates a nation that has no reputation in sport and is typically viewed even from within as a country of cheerful but lazy people Creak argues that sport and related physical practices including physical education gymnastics and military training have shaped a national consciousness by locating it in everyday experience These practices are popular participatory performative and above all physical in character and embody ideas and ideologies in a symbolic and experiential way *Embodied Nation* takes readers on a brisk ride through more than a century of Lao history from a nineteenth century game of tikhi an indigenous game resembling field hockey to the country s unprecedented outpouring of nationalist sentiment when hosting the 2009 Southeast Asian Games En route we witness a Lao Vietnamese soccer brawl in 1936 the fascist inspired body ethic of the early 1940s the novel modes of military masculinity that blossomed with national independence the spectacular state theatrics of power represented by Olympic inspired sports festivals and the high hopes and frequent failures of socialist sport in the 1970s and 1980s Of central concern in Creak s narrative are the twin motifs of gender and civilization Despite increasing female participation since the early twentieth century he demonstrates the major role that sport and physical culture have played in forming hegemonic masculinities in Laos Even with limited national sporting success Laos has never won an Olympic medal the healthy toned and muscular form has come to symbolize material development and prosperity *Embodied Nation* outlines the complex ways

in which these motifs through sport and physical culture articulate with state power Combining cultural and intellectual history with historical thick description Creak draws on a creative array of Lao and French sources from previously unexplored archives newspapers and magazines and from ethnographic writing war photography and cartoons More than an imagined community or geobody he shows that Laos was also a body at work making substantive theoretical contributions not only to Southeast Asian studies and history but to the study of the physical culture nationalism masculinity and modernity in all modern societies

Asian Self-Representation at World's Fairs William Peterson, 2025-10-01 International expositions or world s fairs are the largest and most important stage on which millions routinely gather to directly experience express and respond to cultural difference Rather than looking at Asian representation at the hands of colonizing powers something already much examined Asian Self Representation at World s Fairs instead focuses on expressions of an empowered Asian self representation at world s fairs in the West after the so called golden age of the exhibition New modes of representation became possible as the older exhibitionary order of earlier fairs gave way to a dominant performative order one increasingly preoccupied with generating experience and affect Using case studies of national representation at selected fairs over the hundred year period from 1915 2015 this book considers both the politics of representation as well as what happens within the imaginative worlds of Asian country pavilions where the performative has become the dominant mode for imprinting directly on human bodies
