

University of Cape Town
Department of Computer Science
Honours 2015
Application Form for Students from Outside UCT

Please Note: Space is limited and admission is not guaranteed. You must *only* apply to the University for admission (by **30th September, 2014**). You should also apply for NRF and other bursaries for which you qualify. Return your completed form plus motivation letter to our Admin Officer: Mrs Salanga Valley Salanga.Valley@uct.ac.za.

- Honours starts two weeks before the normal start of lectures, ie that is on the **28th January 2015**.
- Have a look at our Honours Modules for this year (realising that next year will be different): www.cs.uct.ac.za/honours.
- There are three versions of honours and outside students do 'CSO40159' (the essential difference is that the other courses are for students who have completed their undergraduate training at UCT and leads to a BSc accredited qualification). The content of the courses is exactly the same.

The Shale Dilemma Shanti Gamper-Rabindran, 2017-11-30 The US shale boom and efforts by other countries to exploit their shale resources could reshape energy and environmental landscapes across the world But how might those landscapes change Will countries with significant physical reserves try to exploit them Will they protect or harm local communities and the global climate Will the benefits be shared or retained by powerful interests And how will these decisions be made The Shale Dilemma brings together experts working at the forefront of shale gas issues on four continents to explain how countries reach their decisions on shale development Using a common analytical framework the authors identify both local factors and transnational patterns in the decision making process Eight case studies reveal the trade offs each country makes as it decides whether to pursue delay or block development Those outcomes in turn reflect the nature of a country's political process and the power of interest groups on both sides of the issue The contributors also ask whether the economic arguments made by the shale industry and its government supporters have overshadowed the concerns of local communities for information on the effects of shale operations and for tax policies and regulations to ensure broad based economic development and environmental protection As an informative and even handed account The Shale Dilemma recommends practical steps to help countries reach better more transparent and more far sighted decisions
