A person is captured mid-air, performing a backflip in a vibrant, colorful urban setting. The background features multi-story buildings in various colors like yellow, red, and blue, with palm trees and a clear blue sky. The person is wearing a dark jacket and pants, and a large orange backpack. A cloud of purple smoke or paint is trailing behind them. The title 'AMERICAN THINK' is written in large, colorful, 3D block letters at the bottom of the image.

Visions Of America Vol 2 Second Edition:

British Jacobin Politics, Desires, and Aftermaths James Epstein, David Karr, 2021-01-31 This book explores the hopes desires and imagined futures that characterized British radicalism in the 1790s and the resurfacing of this sense of possibility in the following decades The articulation of Jacobin sentiments reflected the emotional investments of men and women inspired by the French Revolution and committed to political transformation The authors emphasize the performative aspects of political culture and the spaces in which mobilization and expression occurred including the club room tavern coffeehouse street outdoor meeting theater chapel courtroom prison and convict ship America imagined as a site of republican citizenship and New South Wales experienced as a space of political exile widened the scope of radical dreaming Part 1 focuses on the political culture forged under the shifting influence of the French Revolution Part 2 explores the afterlives of British Jacobinism in the year 1817 in early Chartist memorialization of the Scottish martyrs of 1794 and in the writings of E P Thompson The relationship between popular radicals and the Romantics is a theme pursued in several chapters a dialogue is sustained across the disciplinary boundaries of British history and literary studies The volume captures the revolutionary decade s effervescent yearning and its unruly persistence in later years *Drawing the Past, Volume 1* Dorian L. Alexander, Michael Goodrum, Philip Smith, 2022-01-04 Contributions by Lawrence Abrams Dorian L Alexander Max Bledstein Peter Cullen Bryan Stephen Connor Matthew J Costello Martin Flanagan Michael Fuchs Michael Goodrum Bridget Keown Kaleb Knoblach Christina M Knopf Martin Lund Jordan Newton Stefan Rabitsch Maryanne Rhett and Philip Smith History has always been a matter of arranging evidence into a narrative but the public debate over the meanings we attach to a given history can seem particularly acute in our current age Like all artistic mediums comics possess the power to mold history into shapes that serve its prospective audience and creator both It makes sense then that history no stranger to the creation of hagiographies particularly in the service of nationalism and other political ideologies is so easily summoned to the panelled page Comics like statues museums and other vehicles for historical narrative make both monsters and heroes of men while fueling combative beliefs in personal versions of United States history *Drawing the Past Volume 1 Comics and the Historical Imagination in the United States* the first book in a two volume series provides a map of current approaches to comics and their engagement with historical representation The first section of the book on history and form explores the existence shape and influence of comics as a medium The second section concerns the question of trauma understood both as individual traumas that can shape the relationship between the narrator and object and historical traumas that invite a reassessment of existing social economic and cultural assumptions The final section on mythic histories delves into ways in which comics add to the mythology of the US Together both volumes bring together a range of different approaches to diverse material and feature remarkable scholars from all over the world *Mercenaries and Security Contractors in the 21st Century* Eugenio Cusumano, Christopher Kinsey, Robert Parr, 2025-03-31 This book examines the debate over private

security contractors using historical and contemporary cases including several non Western examples Since the end of the Cold War security privatization has grown in its geographical outreach breadth and scope This pervasive expansion of the private military and security market warrants a systematic investigation of commercial actors involvement in the variety of tasks associated with the provision of violence ranging from combat to vessel protection and cybersecurity Combining theoretical and empirical approaches the essays in this volume provide a historical investigation into private force that extends beyond Europe and the United States By focusing on recent developments such as the extensive involvement of Russian mercenaries in Ukraine new evidence from the Global South and the added historical depth given to the study of commercial providers of warfare this volume questions the endurance of norms like the mercenary taboo and the state monopoly of violence In doing so it sheds new light on the past present and future of private security This book will be of much interest to students of private security studies military studies security studies and international relations

Sacred Paths of the West Theodore M Ludwig,2015-08-07 This text combines study of the dynamic historical development of each religious tradition with a comparative thematic structure Students are encouraged to discover and explore the nature of religious experience by comparing basic themes and issues common to all religions finding connections with their own personal experiences By sensitively introducing descriptive material within a comparative thematic structure this text helps students to understand how each religion provides for its adherents patterns and meanings that make up a full way of life

Prophecy in the New Millennium Suzanne Newcombe,Sarah Harvey,2016-04-15 Secular and spiritual prophets of doom abound in the information rich twenty first century as they have for millennia But there has yet to be worldwide floods meteor impact global computer failure obvious alien contact or direct intervention from God to end the world as we know it Considering the frequency with which prophecy apparently fails why do prophecies continue to be made and what social functions do they serve This volume gives a concise but comprehensive overview of the rich diversity of prophecy its role in major world religions as well as in new religions and alternative spiritualities its social dynamics and its impact on individuals lives Academic analyses are complimented with contextualized primary source testimonies of those who live and have lived within a prophetic framework The book argues that the key to understanding the more dramatic apocalyptic and millenarian aspects of prophecy is in appreciating prophecy s more mundane manifestations and its role in providing meaning and motivation in everyday life
