and instructional outcomes and strategies Highlighting a range of pertinent topics such as immersive virtual learning environments virtual laboratories and distance education this publication is an ideal reference source for pre service and in service teachers school administrators principles higher education faculty K 12 instructors policymakers and researchers interested in virtual reality incorporation in the classroom

Instructional Explanations in the Disciplines Mary Kay Stein,Linda Kucan,2009-11-27 In today s climate of accountability and standards increasing attention is focused on teacher quality with less emphasis on what teachers actually do to interest and engage students in learning This path breaking volume addresses this research problem with a clear definition and a content specific analysis of the most essential teaching moment the instructional explanation for vital new perspectives on educational method and process Rich in examples from science mathematics and the humanities Instructional Explanations in the Disciplines explores a variety of interactive contexts for teaching and learning which may be collaborative between teachers students and others performed in non classroom settings or assisted by technology The book s subject matter specific framework reveals key elements in the process such as carefully examining the question to be answered making connections with what is already known and developing examples conducive to further understanding Instructional Explanations in the Disciplines is a valuable addition to the education library giving researchers new methods of unpacking educational process as few books before it

Developing Technology-Rich Teacher Education Programs: Key Issues Polly, Drew,Mims, Clif,Persichitte, Kay A.,2012-01-31 This book offers professional teacher educators a rare opportunity to harvest the thinking of pioneering colleagues spanning dozens of universities and to benefit from the creativity scholarship hard work and reflection that led them to the models they describe Provided by publisher

Encyclopedia of Distance Learning, Second Edition Rogers, Patricia L.,Berg, Gary A.,Boettcher, Judith V.,Howard, Caroline,Justice, Lorraine,Schenk, Karen D.,2009-01-31 Offers comprehensive coverage of the issues concepts trends and technologies of distance learning

Real Drugs in a Virtual World Edward Murguia,Melissa Tackett-Gibson,Ann Lessem,2007-02-01 Drug Abuse NIDA funded research project on drug information and online drug related communities The editors of this pivotal text Edward Murguia Ann Lessem and Melissa Tackett Gibson elevate the debate about drug use and the Internet from a polemic discourse to social scientific investigation The essays confront issues related to the study of drug communication online including the causal factors of abuse as discussed in online forums the relationship between music and drug use in virtual communities and the ways in which individuals assess the accuracy of online drug information This book highlights the variety of ways to examine drug use as a social problem and presents several theoretical perspectives valuable to online research Real Drugs in a Virtual World is an enlightening and thought provoking read that will appeal to sociology students and those interested in virtual communities

Using Co-Production for Physical Activity for Health Research Sarah Morton,2025-08-29 This is the first research methods book on the application of using a co production approach for physical activity for health research When used for

research co production has potential to be hugely impactful The underpinning ethos of co production is to involve multiple and varied stakeholders throughout the process This book offers evidence based guidance case studies and reflections on using co production specifically for physical activity and health research By involving users at every stage from conception to finalization of outputs the book demonstrates the power of co production as a tool for positive change across society providing insights into understanding user needs addressing barriers developing meaningful outputs and enhancing policy implementation This book not only captures the current state of co production within the field but also lays the groundwork for future developments The book offers insights into best practices evidence based approaches and strategies to rectify any deviations from the intended co production process By exploring the what next for the field the authors encourage ongoing innovation and advancement in co production methodology and by involving a wide range of stakeholders in research it provides a bridge between academics and non academics With its comprehensive coverage of co production physical activity for health and the intersection between the two this book provides a vital resource for researchers in qualitative research physical activity healthcare intervention design and development and wellbeing It is also vital reading for practitioners and policymakers seeking to harness the potential of co production to drive positive change in promoting physical activity and improving health outcomes for individuals and society at large

HEALTHCARE's OUT SICK - PREDICTING A CURE - Solutions that WORK !!!! Gary D. Miner,Linda Miner,Darrell L. Dean,2019-01-04 The U S healthcare system is in complete chaos disarray Medical costs have increased significantly over the past 6 years with 70% increase for deductibles and 24% or more for health insurance premiums All the while workers earnings have either not increased or if they did the pay raises were for less than the increase in the cost of medical care The situation is unsustainable and the public wants the system fixed This book offers ways of fixing the problems in healthcare HEALTHCARE s OUT SICK PREDICTING A CURE Solutions that WORK first defines the healthcare in crisis problem Through real patient experiences the book describes the difficulties of getting through the maze of complexity among the plethora of silo providers which make up the industry The heart of the book provides readers with a comprehensive solution that can work a disruption that is necessary to provide Americans the medical care they need without the US public and healthcare providers and payors going into bankruptcy insolvency or closure This book delves into digitized medicine payor and provider reimbursement models and value based healthcare delivery It also includes a philosophy or mode of thinking and operation for the solutions that are needed for diagnosis effective cost effective and time efficient healthcare delivery of which digitized medicine value based care and payor reimbursement modes are just some of the factors The authors propose that the real solution involves having the patient at the center of the issues and changing from an archaic gold standard way of thinking to a Predictive Analytic thinking where one gets at the real truth by doing real science that in the end becomes effective not only for the population but for the individual person This all leads to real person centered and person directed medicine and healthcare delivery

Technocrime Stéphane Leman-Langlois, 2013-05-13 This book is concerned with the concept of technocrime. The term encompasses crimes committed on or with computers, the standard definition of cybercrime, but it goes well beyond this to convey the idea that technology enables an entirely new way of committing, combating, and thinking about criminality: criminals, police, courts, victims, and citizens. Technology offers, for example, not only new ways of combating crime but also new ways to look for, unveil, and label crimes and new ways to know, watch, prosecute, and punish criminals. Technocrime differs from books concerned more narrowly with cybercrime in taking an approach and understanding of the scope of technology's impact on crime and crime control. It uncovers mechanisms by which behaviours become crimes or cease to be called crimes. It identifies a number of corporate, government, and individual actors who are instrumental in this construction. And it looks at the beneficiaries of increased surveillance, control, and protection, as well as the targets of it. Chapters in the book cover specific technologies, e.g., the use of CCTV in various settings, computers, hackers, and security experts, photo radar, but have a wider objective to provide a comparative perspective and some broader theoretical foundations for thinking about crime and technology than have existed hitherto. This is a pioneering book which advances our understanding of the relationship between crime and technology, drawing upon the disciplines of criminology, political science, sociology, psychology, anthropology, surveillance studies, and cultural studies.

Innovative Technology-based Solutions for Primary, Secondary and Tertiary STEM Education Cristina Hava Muntean, Diana Bogusevschi, Gabriel-Miro Muntean, 2019-09-23 This book presents innovative technology-enhanced learning solutions for STEM education proposed by the EU Horizon 2020-funded NEWTON project, by first highlighting the benefits and limitations of existing research, work, e-learning systems, and case studies that embedded technology in the teaching and learning process. NEWTON's proposed innovative technologies and pedagogies include adaptive multimedia and multiple sensorial media, virtual reality, fabrication, and virtual labs, gamification, personalisation, game-based learning, and self-directed learning pedagogies. The main objectives are to encourage STEM education among younger generations and to attract students to STEM subjects, making these subjects more appealing and interesting. Real-life deployment of NEWTON technologies and developed educational materials in over 20 European educational institutions at primary, secondary, and tertiary levels demonstrated statistically significant increases in terms of learner satisfaction, learner motivation, and knowledge acquisition.

OECD Rural Studies Enhancing Rural Innovation in the United States OECD, 2023-11-16 When it comes to high-tech innovations, the United States leads the path amongst OECD economies. However, in the context of the national record-breaking activities in high-tech innovation, there lies distinct and growing geographical disparities. This report dives into strategies for better understanding innovation that occurs in rural places and places outside major metropolitan areas, often going beyond science and technology.

Handbook of Evolutionary Research in Archaeology Anna Marie Prentiss, 2019-06-03 Evolutionary Research in Archaeology seeks to provide a comprehensive overview of contemporary evolutionary research in archaeology. The book will
