Understanding Price Action Practical Analysis Of The 5 Minute Time Frame:

Understanding Price Action Bob Volman, 2014-10-17 *Understanding Price Action* is a must read for both the aspiring and professional trader who seek to obtain a deeper understanding of what is commonly referred to as trading from the naked chart. The power of the book lies in the exceptional transparency with which the concepts and trading techniques are put forth. Besides offering the reader a comprehensive study on price action mechanics included within is a series of six months of consecutive sessions of the EUR/USD 5 minute. Written with a razor sharp eye for practical detail yet in a highly absorbable manner, *Understanding Price Action* breathes quality from every page and is bound to become a classic in the library of any trader who is serious about his education.
