The background of the cover features a stylized, artistic illustration. It depicts a landscape with rolling green hills under a pale, yellowish sky. Several dark, leafless trees are scattered across the scene. In the foreground, a small, dark bird with a long tail is walking on a brownish ground. The overall style is reminiscent of early 20th-century book design.

The nature of silence is hard to grasp This book serves to systematize this concept and explore it in the works of three major poets of religious experience namely Gerard Manley Hopkins T S Eliot and R S Thomas Since these poets worked within a Christian framework the silences they refer to are mainly those emerging in the context of the relationship between God and man in a post Christian climate The book s textual analyses place special attention on the dynamics between thematic and structural manifestations of silence and are situated at the crossroads of the poetics philosophy and theology In this first study bringing together the poetry of Hopkins Eliot and Thomas the three poets each in his unique way emerge as poetic ministers practitioners and producers of silence who try to find a new language to talk about the Ineffable God and one s experience of the divine
