Tourism and Colonization in Indochina (1898-1939) Aline Demay, 2015-01-12 Direct flights to former imperial capitals continued visits to the same tourist sites and the emergence of tours dedicated to the imperial past all pose the question of the heritage of tourism in the former colonies Lesser known as a field of research the study of tourism in colonial situations has begun to impose itself over the past decade as an important issue Interestingly in the colonial era tourism was one element of the policies used by the colonial power to highlight its colony The use of tourist activities for political ends was first confirmed in an October 2 1922 circular composed by the Minister of the Colonies Albert Sarraut This circular required all French overseas territories to organize and develop the tourism sector because along with its economic benefits the tourist of today can be the colonist of tomorrow This theme along with knowledge related more specifically to tourism such as the creation of sites and tours and the background of tourists also contributes to sanitary environmental and planning questions as well as issues concerning the construction of national sentiment How did tourism develop in a territory during the period of colonial
