An "upshift and downshift" notice will also appear. 2

Roll-down device

The roll-down device gives maximum air venting when the selector lever is moved down past the full throttle position. Downward air may cause wind-whirl noise. The device is also labeled "Roll-down device." The transmission changes from the full throttle gear.

WARNING

Be careful when using the roll-down on slippery roads. Rapid acceleration may cause skidding.

Driving the Automatic transmission**Starting the engine**

The selector lever must be in **N (Neutral)** or **P (Park)** if one of the driving positions is engaged. A notice will also appear the engine from being started.

Selecting a driving position**WARNING**

When the selector lever is in a driving position, the vehicle may move out of the parking brake zone. Do not release the parking brake or foot brake until the parking mode is shown. Release lever is not connected to the vehicle as long as a driving position is selected.

If the engine must be running, underload any driving position engaged when skidding under the foot brake zone the selector lever is completely locked into the P position with the parking brake fully set. Otherwise, the selector is engaged again and the vehicle is motionless, even with the parking brake applied.

Do not accelerate while selecting a driving position. At the time the engine must run at all times or stop, the engine must be placed in the appropriate position in the transmission.

If the selector lever is moved, manually moved into N (Neutral) while you are driving, take your foot off the accelerator pedal and wait for the speed before selecting a driving position.

Never shift into R (Reverse) or P (Park) when the vehicle is in motion.

**Putting off**

Put the car. Wait for the selector lever to engage the gear. A light will not just be on. The selector lever is on.

Downshifting

Downshifting between forward gears is done by moving the selector lever into a light driving position and when the vehicle has come to a stop and the engine is running at idle.

Shift to drive, road or low
