Graduation Speech

Congratulations graduates! Today is a great day. It's a day to celebrate with your families and friends. A day you've been waiting for since you entered kindergarten those 13 long years ago.

For some of you, it's waiting to get out of school and get on with your life. It's a time when the old childhood rhyme, "No more pencils, no more books, no more teachers' dirty looks" describes just how you feel.

For many others of you, high school graduation is just the next step in your education. You're headed to a university, a community college, apprenticeship training – to the daunting task of preparing for the career you want to pursue.

But for all of you, as you return the caps and gowns you're wearing today and take your tassels and diplomas home, remember this: The diploma you receive today is your insurance policy with the premium paid in full by your hard work over the past 13 years. The value of that policy depends on how much effort you put into your education and what you do with it as you go on.

Use it. Take advantage of what it offers. Statistics show that your high school diploma is your passport to higher earnings and protection against tough economic times. It's not a guarantee, but it will always be a help.

Your diploma also represents a public education system that insures that all young people here in *(community name)* and across our nation, even the neediest, have access to the same experiences that have shaped you and me: a first rate education; an exposure to the diverse beliefs and traditions that drive an ever more interdependent and complex world, and a chance to experience the joy of learning.

Take those experiences with you. Keep close to the student and teacher friends you've made here at *(name)* High School. And do well wherever you go and in whatever you do.

You've earned your passport. Use it well. Congratulations again to each of you and may you all succeed in the years ahead.

Vocational School Graduation Speeches:

A Journey to a Successful Career/Education Dr. C, 2012-08-08 This is a parent student guide to assist our youth with their journey to accomplishing a successful career and ambassadorship It chronicles the four stages of a child's life from conception to college and the responsibility that both parent and child must accept for success in life Stage one conception through pre school the focus is on the parent s because they are the child's first teacher Stage two Middle School the focus shifts from the parents and tilts toward the adolescent Stage three High School the spotlight is on the student or young adult with the parent as support Stage four Ambassadorship is the last stage of the journey It is the most important and should be intertwined throughout all stages of the journey It includes a vision of one's true purpose and *Sound of Our Summer Seas* Diane Menghetti, 2004 There is some evidence that Japanese people may have visited Australia before the Europeans settled here The Japanese government legalised emigration in 1866 and twenty four passports to Australia were issued between 1868 and 1882 The first Japanese settler to arrive in Queensland in the 1870s was a circus acrobat By the end of the century nearly 4000 Japanese lived in Australia and 88% of them in Queensland Few people realise that Townsville in North Queensland hosted the first Japanese Consuls based in Australia They served their countrymen who were working in the pearling trochus shell and sugar industries The previously little known and fascinating story of Townsville's Japanese Consuls which is superbly illustrated by Townsville based artist Tate Adams will surprise and delight **Trends in High School**

Vocational/technical Course taking Karen Levesque, 2003 *A Final Promise* Frederick E. Hoxie, 2021-11-08 Frederick E Hoxie is director of the D Arcy McNickle Center for the History of the American Indian at the Newberry Library He coedited with Joan Mark E Jane Gay s *With the Nez Perc s Alice Fletcher in the Field 1889-92 Nebraska 1981* Resources in Education , 2000-10 **Congressional Record** United States. Congress, 1970 The Congressional Record is the official record of the proceedings and debates of the United States Congress It is published daily when Congress is in session The Congressional Record began publication in 1873 Debates for sessions prior to 1873 are recorded in *The Debates and Proceedings in the Congress of the United States 1789-1824 the Register of Debates in Congress 1824-1837 and the Congressional Globe 1833-1873* *Research in Education* , 1974 **Prison Profiles** Mary Knochel, Ph.D.; Rafael Ramirez, 2001-07-10 Every man who enters the custody of the Indiana Department of Corrections does so in the same condition naked as the day he was born Under the wary eyes of prison guards he and fellow inmates must shower and then de louse one another Naked but not alone they emerge into their new existence as wards of the DOC Some of these inmates will spend their prison lives behind tall fences with many restrictions on their activities others may be released to work outside the prison walls and allowed many liberties Their fate depends upon the nature and extent of their crimes and the availability of space in the appropriate facility Prison Profiles delineates the profiles of both the prisons and the prisoners who inhabit them The book describes the classification system used by the Indiana Department of Correction to determine

which inmate is assigned to which institution by following six typical male offenders through the process. Portraying a wide variety of criminals and their crimes, *Prison Profiles* shows how their sentences may be served under vastly different circumstances. Profiling the facilities, the work investigates the great contrast in levels of security and custody maintained at different types of penal institutions. By studying the backgrounds of the six inmates, monitoring their progress through the classification and assignment procedures, and then witnessing their daily lives behind bars, the reader is introduced to the complex issues involved in the administration of the criminal justice system. The timely topics of crime control, inmate treatment, prison overcrowding, and cost containment are addressed. A glossary is provided to explain the vocabulary of the professionals and the vernacular of the prisoners. The following chapter summaries describe what readers may expect to encounter as they examine the profiles.

Chapter One: The Reception and Diagnostic Center Follow the fortunes of typical prisoners from fumigation to indoctrination. See how an inmate is assimilated into the prison system from the delousing shower to the psychological testing. Learn about the security levels and custody designations which range from open camps to isolated cells. Find out how the Indiana Department of Corrections decides which prisoner goes where.

Chapter Two: Classification Meet a Classification Specialist and look over his shoulder as he conducts interviews with and reviews paperwork of three typical offenders: a drunk driver, a troubled teen, and a middle-aged child abuser. See how the specialist considers the nature of the offense, past criminal history, and test results to determine ideal placement of the offender. Learn why most inmates serve only half of their sentences.

Chapter Three: Classification Continued Spend another day with the Classification Specialist, this time in the company of three offenders who spell major trouble for the system: a street-wise drug dealer with diabetes, a quiet murderer with a psychosis, and a violent gangster with a trigger-hot temper. Read their psychological records and learn how staff members try to alert one another to the potential problems they pose.

Chapter Four: The Farm Follow the drunk driver to one of the state's oldest prisons. Learn about the history of the penal system in Indiana, how inmates lived in tents while making the bricks to build the prison.
