La publicación de este volumen representa un caso relativamente insólito. Un pequeño grupo de jóvenes investigadores de menos de treinta años convence a un grupo mucho más numeroso de la misma edad para celebrar en Salamanca la First Conference of Young Researchers on Anglophone Studies. El resultado es deslumbrante. No solo demuestran una gran capacidad organizativa sino que los resultados individuales de las aportaciones científicas son sobresalientes. Este volumen *Current Trends in Anglophone Studies* recoge una selección revisada de las propuestas presentadas en el Encuentro y gira en torno a una estructuración tripartita clásica: estudios culturales, lingüísticos y literarios. En ella caben todos aquellos que se mueven en el campo de los estudios anglofonos. Cada uno de estos campos podría haber sido suficiente para celebrar un congreso, pero parece razonable que en este tipo de encuentros tengan cabida todos. De ese modo, este volumen se convierte en un ejemplo de aproximación interdisciplinaria a los estudios anglofonos. Desde un punto de vista cuantitativo, los estudios culturales ocupan sin duda un espacio menor. Sin embargo, sobresale la variedad de temas tratados, así como la internacionalización de los autores: dentro de este apartado, estudiantes españoles e italianos acometen estudios relacionados con la música, la pintura, el cine, la traducción, la marginalidad social o el impacto de las nuevas tecnologías en la producción artística. Si no pareciera demasiado atrevido, podría decirse que estos jóvenes estudiosos irían más allá de lo que un día ya lejano pudieron imaginar Richard Hoggard o Raymond Williams. Los estudios aquí presentados reflejan sin duda la evolución que la propia sociedad ha experimentado en estos últimos cincuenta años y exploran la relación entre las prácticas culturales, la vida diaria y los contextos económicos, políticos e históricos. No es de extrañar que una gran parte de las contribuciones presentadas en este volumen se centren en el estudio de la lengua, ya que la demanda del inglés se ha incrementado de forma considerable en los últimos años. Sobresalen los análisis puramente filológicos y, sobre todo, los relacionados con el aprendizaje del inglés como segunda lengua. Por eso destacan estudios que contemplan rasgos morfológicos léxicos o sintácticos. Sin embargo, el mayor número de participaciones hace referencia al ya citado aprendizaje del inglés como L2, tanto desde el análisis de materiales como desde la práctica oral o escrita. Las contribuciones literarias ofrecen una evaluación teórica formal e interpretativa de distintas tendencias desde perspectivas tanto interdisciplinares como interculturales. Cronológicamente, los estudios abarcan textos desde el siglo XVIII hasta nuestros días, con un acento especial en los autores más contemporáneos y en el género narrativo. En general, estos estudios se fijan en textos concretos y los analizan desde perspectivas culturales, sociológicas o psicológicas. Pero abundan menos las aproximaciones desde la teoría literaria, desde la técnica narrativa o como tal vez cabría esperar al tratarse de estudiantes tan jóvenes desde la aplicación de las nuevas tecnologías. Por el contrario, se repiten temas como los traumas heredados de la Guerra de Vietnam, las cicatrices del 11 de septiembre o los problemas de género. En definitiva, se trata de una selección de artículos claramente prometedora.

que transmite la seguridad de que el futuro de la Filología Inglesa está en buenas manos y podrá experimentar una positiva evolución en los próximos años. Por todo ello hay que felicitar a todos los participantes individuales y sobre todo a los organizadores del evento y editores de este volumen que han demostrado una enorme capacidad de trabajo y de saber hacer.

The Distance Learning Playbook for College and University Instruction Douglas Fisher, Nancy Frey, John Almarode, John Hattie, 2020-08-20. First let's commend ourselves how in the midst of a pandemic we faculty stepped up at record speed to teach in such a foreign learning environment. Try we did, adapt we did, and learn we did. But to be clear, and we already recognize this, this past spring was less about distance learning and more about crisis teaching. This time around we have the opportunity to be much more purposeful and intentional, and that's where *The Distance Learning Playbook for College and University Instruction* will prove absolutely indispensable. Much more than a collection of cool tools and apps, *The Distance Learning Playbook for College and University Instruction* mobilizes decades of Visible Learning research to reveal those evidence-based strategies that work best in an online environment. Supplemented by video footage and opportunities to self-assess and reflect, the book addresses every dynamic that must be in place for students to learn even at a distance: Faculty-student relationships from a distance, Teacher credibility from a distance, Teacher clarity from a distance, Engaging tasks from a distance, Planning learning experiences from a distance, Feedback assessment and grading from a distance, Keeping the focus on learning from a distance, or otherwise. What does our post-COVID future hold? We suspect Fisher, Frey, Almarode, and Hattie write it will include increased amounts of distance learning. In the meantime, let's seize on what we have learned to improve post-secondary education in any format, whether face-to-face or from a distance. We are all still active faculty members committed to teaching, scholarship, and service. The unexpected transition to remote learning doesn't mean we no longer know how to teach. We can still impact the lives of our students and know that we made a difference. *The Distance Learning Playbook for College and University Instruction* will show you how. Douglas Fisher, Nancy Frey, John Almarode, and John Hattie.

TESOL Guide for Critical Praxis in Teaching, Inquiry, and Advocacy Crawford, Jenifer, Filback, Robert A., 2021-09-17. The field of TESOL encompasses English teachers who teach English as an additional language in English-dominant countries and those teachers who teach English as a foreign language in countries where a language other than English is the official language. This range of educators teaches English to children, adolescents, and adults in primary, secondary, post-secondary, popular education, and language academies or tutoring centers. The diversity of learners and contexts within the TESOL field presents a unique opportunity for educators to address varied educational and societal needs. This opportunity calls for TESOL educators who can support the whole learner in a range of contexts for the greater social good. There is an urgent need for readily reproducible and step-by-step research-based practices and current standards in TESOL that bridge the gap between critical scholarship and equitable teaching practices. This book would serve as a critical addition to current literature in TESOL. *TESOL Guide for Critical Praxis in Teaching, Inquiry, and Advocacy* is an essential

reference that provides practical and equitable step by step guides for TESOL educators through the current best practices and methods for effective and equity minded teaching critical inquiry and transformative advocacy This book is of particular value as it bridges theories to practices with a critical look at racial and social justice in English language teaching which will lead to the integration of social justice focused practice across the new curriculum Covering topics such as integrated language instruction equity and inclusivity critical consciousness and online learning this text is essential for in service and pre service TESOL educators education students researchers administrators teacher educators and academicians
