Classifying Fashion, Fashioning Class Katherine Appleford, 2020-10-14 Drawing together theoretical ideas from across the social sciences *Classifying Fashion Fashioning Class* examines how the fashion class association has developed and using the experiences of middle and working class British women demonstrates how this relationship operates today Though increasingly academics argue that contemporary class distinctions are made through cultural practices and tastes few have fully explored just how individual s fashion choices mobilise class and are used in class evaluations Yet an individual s everyday dress is perhaps the most immediate marker of taste and thus an important means of class distinction This is particularly true for women as their performances of respectability femininity and motherhood are embodied by fashion and shaped by class In unpacking this fashion class relationship the book explores how fashion is used by British women to talk about class It offers important insights into the ways fashion mobilises class differences in understandings of dressing up performance and public space It considers how class identity shapes women s attitudes concerning fashion trends and classic styles and it draws attention to the pivotal role mothers play in cultivating these class distinctions The book will be of interest to students in sociology fashion studies cultural studies human geography and consumer behaviour

Counterfactual Romanticism Damian Walford

Davies,2019-09-18 Innovatively extending counterfactual thought experiments from history and the social sciences to literary historiography criticism and theory Counterfactual Romanticism reveals the ways in which the shapes of Romanticism are conditioned by that which did not come to pass Exploring various modalities of counterfactual speculation and inquiry across a range of Romantic period authors genres and concerns this collection offers a radical new purchase on literary history on the relationship between history and fiction and on our historicist methods to date and thus on the Romanticisms we think we have inherited Counterfactual Romanticism provides a ground breaking method of re reading literary pasts and our own reading presents in the process literary production texts and reading practices are unfossilised and defamiliarised

Religion and Innovation Donald A. Yerxa,2015-12-17 It is often assumed that religion is the backward looking servant of tradition and the status quo utterly opposed to the new This refrain in so much of recent polemical writing has permeated the public mind and can even be found in academic publications But recent scholarship increasingly shows that this view is a gross simplification that in fact religious beliefs and practices have contributed to significant changes in human affairs political and legal social and artistic scientific and commercial This is certainly not to say that religion is always innovative But the relationship between religion and innovation is much more complex and instructive than is generally assumed Religion and Innovation includes contributions from leading historians archaeologists and social scientists who offer findings about the relationship between religion and innovation The essays collected in this volume range from discussions of the transformative power of religion in early societies to re examinations of our notions of naturalism secularization and progress to explorations of cutting edge contemporary issues Combining scholarly rigor with clear accessible writing Religion and Innovation Antagonists or Partners is essential reading for anyone interested in the history of religion and the ongoing debates about its role in the modern world and into the future English (2022-23 TGT/PGT/LT

A People's History of Classics Edith Hall, Henry Stead, 2020-02-26 A People's History of Classics explores the influence of the classical past on the lives of working class people whose voices have been almost completely excluded from previous histories of classical scholarship and pedagogy in Britain and Ireland from the late 17th to the early 20th century This volume challenges the prevailing scholarly and public assumption that the intimate link between the exclusive intellectual culture of British elites and the study of the ancient Greeks and Romans and their languages meant that working class culture was a Classics Free Zone Making use of diverse sources of information both published and unpublished in archives museums and libraries across the United Kingdom and Ireland Hall and Stead examine the working class experience of classical culture from the Bill of Rights in 1689 to the outbreak of World War II They analyse a huge volume of data from individuals groups regions and activities in a huge range of sources including memoirs autobiographies Trade Union collections poetry factory archives artefacts and documents in regional museums This allows a deeper understanding not only of the many examples of interaction with the Classics but also what these cultural interactions signified to the working poor from the promise of social advancement to propaganda exploited by the elites to covert and overt class war A People's History of Classics offers a fascinating and insightful exploration of the many and varied engagements with Greece and Rome among the working classes in Britain and Ireland and is a must read not only for classicists but also for students of British and Irish social intellectual and political history in this period Further it brings new historical depth and perspectives to public debates around the future of classical education and should be read by anyone with an interest in educational policy in Britain today

A Question of Inequality Christopher Stead, 2018-07-30 Inequality is widening In the twenty first century the gap between those who have more and those who have less is growing 1 per cent of the world owns as much as the other 99 per cent Should we be worried Christopher Stead author of the acclaimed A Question of Worth argues that inequality does indeed matter that economic fairness is one of the defining issues of our time In a world conditioned by social media enabling intensified social comparison the anxieties and effects of contemporary inequality are a cause for huge concern Despite a wealth of research around inequality most studies have concentrated on its quantitative aspects In A Question of Inequality Christopher Stead is concerned with exploring why inequality matters what it means for those who find themselves victims of it and what can be done about it He probes what it means to experience inequality drawing out case studies on the effects of poverty In proposing a theory of social relativity the author provides new insights into the effects and meaning of inequality and makes an original and important contribution to a key issue facing the world today

A Guided Reader to Early Years and Primary English Margaret Mallett, 2015-10-23 A Guided Reader to Early Years and Primary English draws on extracts from

the published work of some of the most influential education writers to provide insight guidance and clarity about key issues affecting early years practitioners and primary English teachers The book brings together key extracts from classic and contemporary writing and contextualises these in both theoretical and practical terms The extracts are accompanied by a summary of the key ideas and issues raised questions to promote discussion and reflective practice and annotated further reading lists to extend thinking Taking a thematic approach and including a short introduction to each theme the chapters cover Models of and approaches to early years and primary English Speaking and listening in English lessons story telling drama booktalk and debate Reading and responding to texts in English lessons Writing in English lessons finding a voice Knowledge about language grammar spelling punctuation and handwriting The rich landscape of children s literature Non fiction in English lessons Planning assessing and recording children s progress the learning cycle Aimed at trainee and newly qualified teachers those working towards Masters level qualifications and all those involved in the teaching of early years and primary English this accessible but critically provocative text will be an essential resource for those that wish to deepen their understanding of early years and primary English education

Morality and Power Mike Berry, 2017-08-25 Offering a compelling critique of orthodox economic analysis in the public realm Mike Berry exposes the lack of development in economic thinking in public policy since the economic crisis of 2008 Focusing on both the ethically unacceptable outcomes of recent public policy and the threat of populism and rising nationalism this book offers noteworthy suggestions for an alternative social democratic future Both students and practitioners of heterodox economics and public policy will find this a compelling insight into the ethical concerns and social impacts raised by the political ascendancy of neoliberal policies in recent decades

Scripture and Song in Nineteenth-Century Britain James Grande, Brian H. Murray, 2023-11-16 This volume brings together new approaches to music history to reveal the interdependence of music and religion in nineteenth century culture As composers and performers drew inspiration from the Bible and new historical sciences called into question the historicity of Scripture controversies raged over the performance publication and censorship of old and new musical forms From oratorio to opera from parlour song to pantomime and from hymn to broadside nineteenth century Britons continually encountered elements of the biblical past in song Both elite and popular music came to play a significant role in the formation regulation and contestation of religious and cultural identity and were used to address questions of class nation and race leading to the beginnings of ethnomusicology This richly interdisciplinary volume brings together musicologists historians literary and art historians and theologians to reveal points of intersection between music religion and cultural history

Heart Beats Catherine Robson, 2015-03-22 Many people in Great Britain and the United States can recall elderly relatives who remembered long stretches of verse learned at school decades earlier yet most of us were never required to recite in class Heart Beats is the first book to examine how poetry recitation came to assume a central place in past curricular programs and to investigate when and why the once mandatory exercise declined Telling the story of a lost

pedagogical practice and its wide ranging effects on two sides of the Atlantic Catherine Robson explores how recitation altered the ordinary people who committed poems to heart and changed the worlds in which they lived Heart Beats begins by investigating recitation's progress within British and American public educational systems over the course of the nineteenth and twentieth centuries and weighs the factors that influenced which poems were most frequently assigned Robson then scrutinizes the recitational fortunes of three short works that were once classroom classics Felicia Hemans's Casabianca Thomas Gray's Elegy Written in a Country Churchyard and Charles Wolfe's Burial of Sir John Moore after Corunna To conclude the book considers W E Henley's Invictus and Rudyard Kipling's If asking why the idea of the memorized poem arouses such different responses in the United States and Great Britain today Focusing on vital connections between poems individuals and their communities Heart Beats is an important study of the history and power of memorized poetry

The Religion of Democracy Amy Kittelstrom, 2015 Today we associate liberal politics with secularism However the role of religion in American politics has always been more complex than that America has never had a president democrat or republican who has not openly stated that they are a Christian for a start The Religion of Democracy is a lively narrative of quintessentially American ideas as they were forged debated and remade across history Kittelstrom shows that the principles of liberty and equality did not emerge in opposition to religion but were actually forged by religion
