Mathematical Time Capsules Dick Jardine, Amy Shell-Gellasch, 2011 Mathematical Time Capsules offers teachers historical modules for immediate use in the mathematics classroom Readers will find articles and activities from mathematics history that enhance the learning of topics covered in the undergraduate or secondary mathematics curricula Each capsule presents at least one topic or a historical thread that can be used throughout a course The capsules were written by experienced practitioners to provide teachers with historical background and classroom activities designed for immediate use in the classroom along with further references and resources on the chapter subject Publisher description

Embracing Disabilities in the Classroom Toby J. Karten, 2008-04-04 The practical aspects of the book provide a wealth of ideas about how educators can make modifications and accommodations for individuals in their classrooms while fostering a positive and inclusive atmosphere Anne Beveridge Coordinator of Primary Years Program Branksome Hall Toronto Canada Provides background historical information current trends suggestions for novice teachers and new ideas for experienced teachers Leslie Hitchens Special Education Teacher Crossroads Elementary St Paul MN Foster positive experiences by differentiating not only instruction but attitudes too How we treat others often influences how individuals feel about themselves This book illustrates how educators can effectively promote sensitive inclusive classroom practices that maximize success for students with disabilities Embracing Disabilities in the Classroom provides content rich interdisciplinary lessons accompanied by behavioral academic and social interventions that capitalize on student strengths Inclusion expert Toby J Karten demonstrates the impact of literature self advocacy role playing and strategic interventions on students growth and achievement The numerous lessons tables rubrics instructional guidelines and charts help readers Determine effective strategies for differentiating instruction for specific disabilities Modify lessons and curriculum appropriately in the content areas Encourage students to become active participants in learning Increase disability awareness and foster inclusive mind sets in students colleagues and families This practical resource provides special education and general education teachers principals and teacher leaders with both effective instructional strategies for curriculum delivery and responsive approaches to promoting positive attitudes toward disabilities Given appropriate support and an accepting environment all students are able to achieve thrive and succeed in school and in life

Teaching Mathematics through Problem-Solving in K-12 Classrooms Matthew Oldridge, 2018-10-31 Teaching through problem solving is a commonly used phrase for mathematics educators This book shows how to use worthwhile and interesting mathematics tasks and problems to build a classroom culture based on students reasoning and thinking It develops a set of axioms about problem solving classrooms to show teachers that mathematics is playful and engaging It presents an aspirational vision for school mathematics one which all teachers can bring into being in their classrooms

Teaching Middle School Mathematics Douglas K.

Brumbaugh,2013-05-13 Middle school teaching and learning has a distinct pedagogy and curriculum that is grounded in the concept of developmentally appropriate education This text is designed to meet the very specific professional development needs of future teachers of mathematics in middle school environments Closely aligned with the NCTM Principles and Standards for School Mathematics the reader friendly interactive format encourages readers to begin developing their own teaching style and making informed decisions about how to approach their future teaching career A variety of examples establish a broad base of ideas intended to stimulate the formative development of concepts and models that can be employed in the classroom Readers are encouraged and motivated to become teaching professionals who are lifelong learners The text offers a wealth of technology related information and activities reflective thought provoking questions mathematical challenges student life based applications TAG tricks activities games sections and group discussion prompts to stimulate each future teacher s thinking Your Turn sections ask readers to work with middle school students directly in field experience settings This core text for middle school mathematics methods courses is also appropriate for elementary and secondary mathematics methods courses that address teaching in the middle school grades and as an excellent in service resource for aspiring or practicing teachers of middle school mathematics as they update their knowledge base Topics covered in Teaching Middle School Mathematics NCTM Principles for School Mathematics Representation Connections Communication Reasoning and Proof Problem Solving Number and Operations Measurement Data Analysis and Probability Algebra in the Middle School Classroom and Geometry in the Middle School Classroom The Software Encyclopedia ,1988

Joyful Math Deanna Pecaski McLennan,2020 This book is about how to create invitations for young children to play with math ideas through art literacy and outdoor play The focus of her book is really on math that occurs OUTSIDE of math time How can we create space for children to play in our classrooms that builds on their own questions as well as the math they are studying in the curriculum How can we create a joyful and playful space for math so that children feel like mathematical thinkers with valuable ideas from the very start How can we create connections between math and children s lives so that they see math as creative and purposeful instead of just learning school math *The Mathematics Teacher* ,2006 Key Maths David Baker,2001 Planned developed and written by practising classroom teachers with a wide variety of experience in schools this maths course has been designed to be enjoyable and motivating for pupils and teachers The course is open and accessible to pupils of all abilities and backgrounds and is differentiated to provide material which is appropriate for all pupils It provides spiral coverage of the curriculum which involves regular revisiting of key concepts to promote familiarity through practice This teacher s file is designed for stage three of Year 9 Supporting Self-Directed Learning in Science and Technology Beyond the School Years Léonie J. Rennie,Susan M. Stocklmayer,John K. Gilbert,2018-12-21 While much has been written about science education from pre K through to postgraduate study interaction with science and technology does not stop when schooling ends Moving beyond scholarship on conventional education this book extends the research and

provides an original in depth look at adult and lifelong learning in science and technology By identifying the knowledge and skills that individuals need to engage in self directed learning the book highlights how educators can best support adult learners beyond the years of formal schooling Through case studies and empirical analysis the authors offer a research based exploration of adults self directed learning and provide tools to support adults learning experiences in a wide range of environments while being inclusive of all educational backgrounds **PC Mag** ,1987-03-31 PCMag com is a leading authority on technology delivering Labs based independent reviews of the latest products and services Our expert industry analysis and practical solutions help you make better buying decisions and get more from technology **The Leverage of National Board Candidacy** Jana Hunzicker,2006-12 The Leverage of National Board Candidacy is written for teachers considering the pursuit of National Board certification as well as for those currently engaged in the certification process Capturing the experiences of Anne Barbara and Jamie three teachers who sought NBPTS certification during the 2004 2005 school year the book vividly describes their teaching practices guiding philosophies and thought processes before exploring each teacher s learning as it occurred during the certification year Comparing the three teachers certification experiences to the findings of recently conducted research the book explores characteristics of readiness for National Board candidacy common learning outcomes of the NBPTS certification process and possible explanations for the varying nature and degree of learning that occurred for the three teachers through the experience The final chapter presents the theory of leverage during National Board candidacy an interactive dynamic that creates an uncomfortable yet positive pressure that makes the pursuit of National Board certification one of the most powerful professional development experiences currently available to teachers *Christian Home Educators' Curriculum Manual* Cathy Duffy,1992 Metamorphosis Simone Matlock-Phillips,2003-11 The experiences that Ms Matlock Phillips had with the students in her first classroom taught her to consider their needs and the environments that they came from when teaching Administration and mentoring teachers were not able to help her to learn the individual need of her students She developed meaningful relationships with each and every one of her students because she was able to understand why they behaved in the ways that they did In other words Ms Matlock learned to respect the values that her students had learned about life and survival and developed teaching strategies that corresponded to their life lessons *The Complete Sourcebook on Children's Software* Children's Software Review,2001-03 5000 critical reviews of CDs videogames smart toys for ages 1 to 16 *Glencoe Algebra 1* Kenneth J. Travers,1990
