Dmitri Mendeleev

Dmitri Mendeleev was a Russian chemist and physicist. He created the periodic table of elements, which is a chart that shows the chemical and physical properties of the elements. He also discovered that elements with similar properties could be grouped together.

Mendeleev's periodic table was the first to show the relationship between the elements. It was a major breakthrough in chemistry, and it helped scientists understand the properties of the elements.

He also discovered that elements with similar properties could be grouped together. This was a major breakthrough in chemistry, and it helped scientists understand the properties of the elements.
