Model Making

Floral Displays

Floral Displays are a popular way to add color and life to your model. They can be made from a variety of materials, including paper, fabric, and dried flowers. Here are some tips for creating realistic floral displays:

- Choose the right materials:** Paper flowers are easy to make and can be painted to look like real flowers. Fabric flowers are more realistic but can be more expensive. Dried flowers are a great option if you want to use real flowers.
- Use a variety of colors and shapes:** Don't just use one color or shape for all your flowers. Mix it up to make your display look more natural.
- Place them strategically:** Think about where you want to place your flowers. Do you want them to be the focal point of the display? Or do you want them to be more subtle?
- Use glue or wire:** You'll need a way to attach your flowers to the base. Glue is a simple option, but wire can be more secure and allows you to adjust the position of the flowers.
