Draper,Glenda Rose Lewe,1991 Literacy or basic skills instruction for the workplace is a new and evolving field of practice for trainers program planners and other partners in business industry and education With the growing gap between workplace demands and workforce skills increasing there is now a need to ensure that employees with basic skills deficiencies have education and training opportunities Exactly how to go about this endeavour has been an area of concern for both employers and union leaders alike Basic Skills in the Workplace is a response to this need It is a useful resource and day to day practical g *Recent Advances in Attempts to Improve Medication Adherence - from basic research to clinical practice, volume II* Przemyslaw Kardas,Tamas Agh,Ines Potočnjak,Cristina Mihaela Ghiciuc,Maria Teresa Herdeiro,2024-12-04 This exciting Research Topic is the second volume of Recent Advances in Attempts to Improve Medication Adherence from basic research to clinical practice which you can explore here Adequate implementation of evidence based long term therapies is an issue of utmost importance It has a direct impact on both individual and public

health as well as on the sustainability of healthcare systems Unfortunately despite more than half a century of extensive research and practical and awareness raising activities medication adherence remains far from perfect Many reasons are responsible for non adherence and the issue is complicated by the rapid aging of the global society the rising tide of non communicable chronic diseases multimorbidity and associated polypharmacy This might be further exacerbated by certain conditions such as the Covid 19 pandemic However one thing is perfectly clear medication non adherence is no longer merely perceived as a patient problem In fact medication adherence depends on many non patient related factors and thus is an important indicator of the quality of care Therefore instead of blaming patients need to be supported in their therapeutic journeys Thus all the stakeholders need to collectively create adherence enabling environments and support patients in the execution of their therapies
