Liebman,Roszel Cathcart Thomsen,James E. interested in the collection of political intelligence or mounting influence operations However as Nigel West reveals the MSS has undergone a radical change in doctrine and having consolidated its grip on supposedly independent commercial joint ventures and academic research institutions is leveraging control over these ostensibly legitimate enterprises to access intelligence agencies now perceived as adversaries such as the CIA and FBI As the rhetoric and tensions between the West and China mounts and with the current US administration calling America s relationship with Beijing the biggest geopolitical test of the 21st century China s unseen espionage offensive is one of the most serious developments in recent times Its extent and effectiveness are explored in this absorbing and chilling new expos The Defense Science Board Task Force on Tactical Battlefield Communications final report ,
