African Women and Intellectual Leadership Maurice Nyamanga Amutabi, Emily Achieng' Akuno, Humphrey J. Ojwang, Dannica Fleuss, 2024-02-29 This book highlights the pioneering roles of African women as leaders and role models in Kenya providing examples taken from across education health business and a range of other sectors Drawing on authentic first hand accounts and narratives from key women in leadership positions and those who have lived with them the book presents the life stories of women leaders over the last fifty years aiming to preserve their contributions for posterity and to inspire young people with moral ethical and progressive role models The book uses African knowledge production strategies that look at the human being holistically in the prism of Ubuntu in order to define leadership in Africa from an African perspective one that celebrates the role of the mother figure and places women at the centre of African values and societal dynamics This book will be of interest to researchers and students of African studies gender studies and Kenyan education and socio political history

Citizen Participation in Decision Making Njogu, Kimani, 2014-01-16 This book is a result of public dialogue forums in pursuit of accountable and transparent governance in Kenya organized by Twaweza Communications with the support of Ford Foundation From the convenings it was evident that the stability of Kenya will be driven by the extent to which citizens feel fully included in the development agenda Quite often political leaders view the role of citizens in governance as restricted primarily to their participation in the electoral process This narrow view has led to arrogance and total disregard of citizens after poll results are announced Under the new political dispensation heralded by the promulgation of the Constitution of Kenya on August 27 2010 this trend must change and the sovereignty of the people in theory and practice must be reinscribed The publication raises important issues worth serious reflection It also suggests ways in which citizens can better participate in their own transformation Case studies highlighted in the book exemplify the importance building the Kenyan nation by addressing patterns of exclusion and glaring inequalities The topics covered include multipartism natural resource governance gender politics of identity marginalization of Coastal Kenya youth empowerment and investing in knowledge economy among others The book is a valuable addition to our understanding of the root political and social anxieties in Kenya and how these could be ameliorated
