Us History Chapter 2 section The Cold War Heats Up:

The History of Policing America Laurence Armand French, 2018-04-05 America's first known system of law enforcement was established more than 350 years ago. Today law enforcement faces issues such as racial discrimination, use of force, and Body Worn Camera (BWC) scrutiny. But the birth and development of the American police can be traced to a multitude of historical, legal, and political-economic conditions. In *The History of Policing America: From Militias and Military to the Law Enforcement of Today*, Laurence Armand French traces how and why law enforcement agencies evolved and became permanent agencies, looking logically through history and offering potential steps forward that could make a difference without triggering unconstructive backlash. From the establishment of the New World to the establishment of the Colonial Militia, from the emergence of the Jim Crow Era to the emergence of the National Guard, from the creation of the U.S. Marshalls, federal law enforcement agencies, and state police agencies, this book traces the historical, geo-political basis of policing in America and even looks at how certain events led to a call for a better trained and subsequently armed police and the de facto militarization of law enforcement. The current controversy regarding policing in America has a long historical background and one that seems to repeat itself. *The History of Policing America* successfully portrays the long-lived motto: you can't know who you are until you know where you've come from. **McDougal Littell the Americans** Gerald A. Danzer, 1999-07-23

The Palgrave Handbook of Cold War Literature Andrew Hammond, 2020-09-04 This book offers a comprehensive guide to global literary engagement with the Cold War. Eschewing the common focus on national cultures, the collection defines Cold War literature as an international current focused on the military and ideological conflicts of the age and characterised by styles and approaches that transcended national borders. Drawing on specialists from across the world, the volume analyses the period's fiction, poetry, drama, and autobiographical writings in three sections: dominant concerns (socialism, decolonisation, nuclearism, propaganda, censorship, espionage, common genres, postmodernism, socialism, realism, dystopianism), migrant poetry, science fiction, testimonial writing, and regional cultures (Asia, Africa, Oceania, Europe, and the Americas). In doing so, the volume forms a landmark contribution to Cold War literary studies which will appeal to all those working on literature of the 1945-1989 period, including specialists in comparative literature, postcolonial literature, contemporary literature, and regional literature.

American Scare Robert W. Fieseler, 2025-06-17 A vital exposé for both our history and our present day. *American Scare* tells the riveting story of how the Florida government destroyed the lives of Black and queer citizens in the twentieth century. In January 1959, Art Copleston was escorted out of his college accounting class by three police officers. In a motel room, blinds drawn, he sat in front of a state senator and the legal counsel for the Florida Legislative Investigation Committee, nicknamed the Johns Committee. His crime: being a suspected homosexual. And the government of Florida would use any tactic at their disposal, legal or not, to get Copleston to admit it. Using a secret trove of primary source documents that have been decoded and de-censored for the first time in history, journalist Robert Fieseler

unravels the mystery of what actually happened behind the closed doors of an inquisition that held ordinary citizens ransom to its extraordinary powers The state of Florida would prefer that this history remain buried But for nearly a decade the Florida Legislature funded and supported the Johns Committee an organization using the cover of communism to viciously attack members of the NAACP and queer professors and students Spearheaded by Charley Johns a multi term politician in a gerrymandered legislature the Committee was determined to eliminate any threats to the state s white conservative regime Fieseler describes the heartbreaking ramifications for citizens of Florida whose lives were imperiled profiling marginalized residents with compassion and a determination to bring their devastating experiences to light at last A propulsive human centered drama with fascinating insight into Florida politics *American Scare* is a page turning reckoning of our racist and homophobic past and its chilling parallels to today Model Machines Long T. Bui,2022-06-10 A study of the stereotype and representation of Asians as robotic machines through history Raising Cane in the 'Glades Gail M. Hollander,2009-11-15 Over the last century the Everglades underwent a metaphorical and ecological transition from impenetrable swamp to endangered wetland At the heart of this transformation lies the Florida sugar industry which by the 1990s was at the center of the political storm over the multi billion dollar ecological restoration of the Everglades *Raising Cane in the Glades* is the first study to situate the environmental transformation of the Everglades within the economic and historical geography of global sugar production and trade Using among other sources interviews government and corporate documents and recently declassified U S State Department memoranda Gail M Hollander demonstrates that the development of Florida s sugar region was the outcome of pitched battles reaching the highest political offices in the U S and in countries around the world especially Cuba which emerges in her narrative as a model a competitor and the regional other to Florida s self Spanning the period from the age of empire to the era of globalization the book shows how the sugar question a label nineteenth century economists coined for intense international debates on sugar production and trade emerges repeatedly in new guises Hollander uses the sugar question as a thread to stitch together past and present local and global in explaining Everglades transformation **History of the United States** American History,1988 **Pahlavi Iran and the Politics of Occidentalism** Zhand Shakibi,2019-12-12 Zhand Shakibi presents a new interpretation of the political and social dynamics of the last decade of the Shah s rule that challenges the binary view of pro West Shah and anti West Ayatollah by drawing attention to the Pahlavi state s reaction to the intellectual and societal backlash against cultural and moral Occidentalism in its last decade Revising the dominant historiography of the Pahlavi ideological and discursive approach to the West this book draws attention to the changes in the attitude of the Shah the Empress and state intellectuals towards the position and imagery of the West in state conceptions of the authenticity of Iranian national culture and identity Drawing on a wide range of primary sources Shakibi presents the multi faceted relationship of the Pahlavi state to the West and the institutions that were created to manage this such as the Rastakhiz Party This study argues that the Pahlavi state having recognized this

backlash attempted to limit the threat to its legitimacy by reformulating intellectual discourses of anti West Occidentalism and incorporating them into the ideology of the Rastakhiz Party In so doing it played a critical role in exacerbating societal sensitivities about the spread of Western influences *Major Problems in American Business History* Regina Lee Blaszczyk, Philip Scranton, 2006 Designed to encourage critical thinking the Major Problems in American History series introduces students to both primary sources and analytical essays on important topics in U S history The central theme of this volume asserts that the history of business is inexorably linked to politics and culture The authors explore specific issues including foreign policy race and ethnicity gender religion work leisure and technological innovation as well as high and low culture The Reagan Presidency W.
