The Magic Garment Rebecca Cunningham, 2019-10-22 Successful costume design requires a solid foundation in general artistic principles and specific knowledge of how to apply those principles. Cunningham presents readers with just such a foundation and develops it to expose beginning costume designers to the myriad skills they need to develop in order to costume successful stage productions. She begins at the most basic conceptual level reading plays from a costume designer's perspective. She then follows through with the practical considerations that must be considered at every stage of the costuming process: research, development, sketching and costume construction. Cunningham has built on the long standing success of the outstanding first edition with new figures and updates throughout the text including 24 pages in full color. Examples have been selected from a wide range of stage productions representing a variety of designers' styles and approaches. Interviews with award winning designers from stage, film and other media show the practical importance of the book's concepts. Every chapter incorporates material reflecting the ever increasing impact of technology especially computers on costuming. New to this edition is an ancillary download package available [here](#) giving students a selection of basic figure drawings to serve as the base layer for digital renderings, ready made forms and checklists for assembling and organizing costumes for shows and a list of research and reference websites with easily clickable links.

Finding Identity Through Directing Soseh Yekanians, 2020-05-10 Finding Identity through Directing is a practice led autoethnographical monograph that provides an in depth exploration into the field of theatre directing and an individual's endless creative pursuit for belonging. The book specifically examines how a culturally displaced individual may find a sense of identity through their directing and addresses the internal struggles of belonging, acceptance and Self that are often experienced by those who have confronted cultural unhoming. The first half of the story scrutinises Dr Yekanians' own identity as an Iranian born Armenian Australian and how she struggled with belonging growing up in a world that for the most part was unaccepting of her differences. The second half looks at how theatre directing aided her re-discovery of Self. While evidence shows that within the past decade there has been a growing interest in the vocation

of theatre directing embarking on a career within this field while exciting can often be a daunting and experimental vocation Finding Identity through Directing questions this conundrum and specifically asks in a competitive artistic profession that is rapidly developing what attracts an individual to the authoritative role of the director and what are the underlying motivations of this attraction By uncovering that there is more to the role of the director than the mere finality of a production we can observe that the theatre is a promising setting for cultural exchanges in dialogue and for personal development Theatre directing as the vehicle for these expansions and progressions of self can potentially address the internal struggles of identity often experienced by those who in some form have encountered cultural displacement **An**

Catron, Scott Shattuck, 2015-05-04 The pursuit of excellence in theatre is well served by the latest edition of this eminently readable text by two directors with wide ranging experience In an engaging conversational manner the authors deftly combine a focus on artistic vision with a practical organized methodology that allows beginning and established directors to bring a creative script interpretation to life for an audience Playing with the Book Hannah Field, 2019-07-02 A beautifully illustrated exploration of how Victorian novelty picture books reshape the ways children read and interact with texts The Victorian era saw an explosion of novelty picture books with flaps to lift and tabs to pull pages that could fold out pop up scenes and even mechanical toys mounted on pages Analyzing books for young children published between 1835 and 1914 Playing with the Book studies how these elaborately designed works raise questions not just about what books should look like but also about what reading is particularly in relation to children's literature and child readers Novelty books promised or threatened to make reading a physical as well as intellectual activity requiring the child to pull a tab or lift a flap to continue the story These books changed the relationship between pictures words and format in both productive and troubling ways Hannah Field considers these aspects of children's reading through case studies of different formats of novelty and movable books and intensive examination of editions that have survived from the nineteenth century She discovers that children ripped tore and colored in their novelty books despite these books explicit instructions against such behaviors Richly illustrated with images of these ingenious constructions Playing with the Book argues that novelty books construct a process of reading that involves touch as well as sight thus reconfiguring our understanding of the phenomenology of reading **Nights That Shook the Stage** Dwayne Brenna, 2023-05-30 Some of the most raucous evenings in the history of theater are chronicled in this lively discussion of occasions when theater makers changed the course of theatrical and sometimes world history Covering a wide range of events from the inauspicious opening of Oedipus Rex in Athens to the assassination of Abraham Lincoln in Washington D C to the violence riddled performance of Halla Bol in New Delhi this book offers detailed and studied observations of specific minutes hours and days on the stage For each staging covered the author examines the reactions of critics and the public and tells the inside story identifies the key players and examines why these events still resound today Cahn-Leighton Official Theatrical Guide , 1922 The Art of Theatrical Design Kaoime E.
