Slavery and the Internal Slave Trade in the United States of North America British and Foreign Anti-slavery Society, 1841 **Slavery and the internal slave trade in the United States of North America; being replies to questions transmitted by the Committee of the British and Foreign Anti-Slavery Society ... Presented to the General Anti-Slavery Convention, held in London, June, 1840. By the executive Committee of the American Anti-slavery Society** British and Foreign Anti-Slavery Society, 1841 *The Lake Poets in Prose* Stuart Andrews, 2021-04-06 Focused on the Lake Poets prose writing including their journalism and correspondence this collection of essays challenges some widely held assumptions Much of the narrative is Bristol based as the city's reference library holds not only much of Southey's personal library but the borrowing registers of the old subscription library which still record the titles that Coleridge and Southey borrowed in the 1790s It places the poets American Susquehanna project customarily dismissed as the idealistic dreams of Oxbridge students in the context of European emigration schemes prompted by the American Revolution Similarly the label Jacobin suggesting French revolutionary brutality is shown here to be no more apt a description than Communist was in 1950s America However the book does show that the poets did challenge the government's social and political assumptions of the day often from a religious standpoint The claim that the three poets abandoned democratic impulses when Napoleon invaded Switzerland is also here rebutted by their involvement a decade later in defending the independence of Spain and Portugal not only against Bonaparte but against their ancien régime monarchies When in 1815 those monarchs were restored Southey pinned his democratic hopes on the Portuguese colony of Brazil At home amid distress caused by wholesale demobilization and shrinkage of economically viable agricultural land the poets understandably condemned the rabble rousers and correctly predicted an assassination attempt Coleridge and Southey both youthful Unitarians and like Wordsworth devotees of the religion of nature are argued here to have defended the Established Church against Catholic Emancipation while the two brothers in law's interest in Islam is shown to be more than mere obsessive Orientalism *America: the origin of her present conflict; her prospect for the slave, and her claim for anti-slavery sympathy; illustrated by incidents of travel during a tour in the summer of 1863, throughout the United States,*

lived there since its founding as a Colonial New England slave plantation three and a half centuries ago In 1984 the landscape historian Mac Griswold was rowing along a Long Island creek when she came upon a stately yellow house and a garden guarded by looming boxwoods She instantly knew that boxwoods that large twelve feet tall fifteen feet wide had to be hundreds of years old So as it happened was the house Sylvester Manor had been held in the same family for eleven generations Formerly encompassing all of Shelter Island New York a pearl of 8 000 acres caught between the North and South Forks of Long Island the manor had dwindled to 243 acres Still its hidden vault proved to be full of revelations and treasures including the 1666 charter for the land and correspondence from Thomas Jefferson Most notable was the short and steep flight of steps the family had called the slave staircase which would provide clues to the extensive but little known story of Northern slavery Alongside a team of archaeologists Griswold began a dig that would uncover a landscape bursting with stories Based on years of archival and field research as well as voyages to Africa the West Indies and Europe The Manor is at once an investigation into forgotten lives and a sweeping drama that captures our history in all its richness and suffering It is a monumental achievement

Slavery and the Making of Early American Libraries Sean D. Moore, 2019-02-14 Early American libraries stood at the nexus of two transatlantic branches of commerce the book trade and the slave trade Slavery and the Making of Early American Libraries bridges the study of these trades by demonstrating how Americans profits from slavery were reinvested in imported British books and providing evidence that the colonial book market was shaped in part by the demand of slave owners for metropolitan cultural capital Drawing on recent scholarship that shows how participation in London cultural life was very expensive in the eighteenth century as well as evidence that enslavers were therefore some of the few early Americans who could afford to import British cultural products the volume merges the fields of the history of the book Atlantic studies and the study of race arguing that the empire wide circulation of British books was underwritten by the labour of the African diaspora The volume is the first in early American and eighteenth century British studies to fuse our growing understanding of the material culture of the transatlantic text with our awareness of slavery as an economic and philanthropic basis for the production and consumption of knowledge In studying the American dissemination of works of British literature and political thought it claims that Americans were seeking out the forms of citizenship constitutional traditions and rights that were the signature of that British identity Even though they were purchasing the sovereignty of Anglo Americans at the expense of African Americans through these books however some colonials were also making the case for the abolition of slavery

Stamped from the Beginning Ibram X. Kendi, 2016-04-12 The National Book Award winning history of how racist ideas were created spread and deeply rooted in American society Some Americans insist that we re living in a post racial society But racist thought is not just alive and well in America it is more sophisticated and more insidious than ever And as award winning historian Ibram X Kendi argues racist ideas have a long and lingering history one in which nearly every great American thinker is complicit In this deeply researched and fast moving narrative Kendi

chronicles the entire story of anti black racist ideas and their staggering power over the course of American history He uses the life stories of five major American intellectuals to drive this history Puritan minister Cotton Mather Thomas Jefferson abolitionist William Lloyd Garrison W E B Du Bois and legendary activist Angela Davis As Kendi shows racist ideas did not arise from ignorance or hatred They were created to justify and rationalize deeply entrenched discriminatory policies and the nation s racial inequities In shedding light on this history Stamped from the Beginning offers us the tools we need to expose racist thinking In the process he gives us reason to hope

Black Abolitionists in Ireland Christine Kinealy,2020-04-28 The story of the anti slavery movement in Ireland is little known yet when Frederick Douglass visited the country in 1845 he described Irish abolitionists as the most ardent that he had ever encountered Moreover their involvement proved to be an important factor in ending the slave trade and later slavery in both the British Empire and in America While Frederick Douglass remains the most renowned black abolitionist to visit Ireland he was not the only one This publication traces the stories of ten black abolitionists including Douglass who travelled to Ireland in the decades before the American Civil War to win support for their cause It opens with former slave Olaudah Equiano kidnapped as a boy from his home in Africa and who was hosted by the United Irishmen in the 1790s it closes with the redoubtable Sarah Parker Remond who visited Ireland in 1859 and chose never to return to America The stories of these ten men and women and their interactions with Ireland are diverse and remarkable

The Civil War and the Summer of 2020 Hilary N. Green,Andrew L. Slap,2024-04-02 Investigates how Americans have remembered violence and resistance since the Civil War including Confederate monuments historical markers college classrooms and history books George Floyd s murder in the summer of 2020 sparked a national reckoning for the United States that had been 400 years in the making Millions of Americans took to the streets to protest both the murder and the centuries of systemic racism that already existed among European colonists but transformed with the arrival of the first enslaved African Americans in 1619 The violence needed to enforce that systemic racism for all those years from the slave driver s whip to state sponsored police brutality attracted the immediate attention of the protesters The

resistance of the protesters echoed generations of African Americans resisting the violence and oppression of white supremacy Their opposition to violence soon spread to other aspects of systemic racism including a cultural hegemony built on and reinforcing white supremacy At the heart of this white supremacist culture is the memory of the Civil War era when in 1861 8 million white Americans revolted against their country to try to safeguard the enslavement of 4 million African Americans The volume has three interconnected sections that build on one another The first section Violence explores systemic racism in the Civil War era and now with essays on slavery policing and slave patrols The second section titled Resistance shows how African Americans resisted violence for the past two centuries with essays discussing matters including self emancipation and African American soldiers The final section Memory investigates how Americans have remembered this violence and resistance since the Civil War including Confederate monuments and historical markers This volume is intended for nonhistorians interested in showing the intertwined and longstanding connections between systemic racism violence resistance and the memory of the Civil War era in the United States that finally exploded in the summer of 2020
