Spiral of Silence Theory

Introduction

The Spiral of Silence Theory dates back to the 1930's and has been around our society since media invented television. Regardless of the authors pre-Internet theory, it still holds truths today. I will define the Spiral of Silence Theory to the best of my knowledge. Not only to understand what the theory's true meaning is, but to state its current status nowadays, inform more on the background, and authors credibility. I will analyze the theory throughout the communication journals, scholarly text books, and credible sources online. I will state the strengths, weakness, and also include my own recommendations. I hope to give my reader a better understanding of the theory and how they could apply it through their daily lives.

Theory Definitions and Approaches

"Idea that people holding views contrary to those dominant in the media are moved to keep those views to themselves from fear of rejection." (Noelle-Neumann) Those who are in the minority in a social public group discussion will be unlikely to speak up in the group therefore going down in a spiral of communication. Then you have those in the majority that will have the confidence to speak up more often in a social public group discussion and voice their opinions - even when it wasn't asked for. One important influence on our opinions is the media. The media has shaped who we are as a society today. (textbook) Basically those who are part of the minority in a public group discussion are frightened from isolation pressure and accept the belief of (the majority) others.

The theorist of the Spiral of Silence Theory is Elisabeth Noelle-Neumann. Elisabeth Noelle-Neumann first presented the spiral of silence theory in two scientific articles in 1974. In 1980, the first book on the spiral of silence was published in German followed by the first edition in English in 1984. (Blog). The approach to the Spiral of Silence theory is Empirical/Scientific. At the core of the Spiral Theory is a term that is commonly accepted but one that she felt was misconstrued: **public opinion**
