The Island of Seven Cities Paul Chiasson, 2010-08-20 The gripping marvel filled account of how a native son took a casual walk up a mountain on Cape Breton Island and made an archeological discovery of world shaking proportions In the summer of 2002 at home for his parents fiftieth wedding anniversary Paul Chiasson decided to climb a mountain he had never explored on the island where eight generations of his Acadian family had lived Cape Breton is one of the oldest points of exploration and settlement in the Americas with a history dating back to the first days of European discovery and it is littered with the remnants of old settlements But the road that Chiasson found that day was unique Well made and consistently wide and at one time clearly bordered with stone walls the road had been a major undertaking In the two years

of detective work that followed Chiasson systematically surveyed the history of Europeans in North America and came to a stunning conclusion the ruins he stumbled upon did not belong to the Portuguese the French or the English in fact they predated John Cabot's discovery of the island in 1497 Using aerial and site photographs maps and drawings and his own expertise as an architect Chiasson carries the reader along as he pieces together the clues to one of the world's great mysteries While tantalizing mentions can be found in early navigators journals and maps The Island of Seven Cities reveals for the first time the existence of a large Chinese colony that thrived on Canadian shores well before the European Age of Discovery Chiasson addresses how the colony was abandoned and forgotten in the New World and in China except in the storytelling and culture of the Mi kmaq whose written language clothing technical knowledge religious beliefs and legends he argues expose deep cultural roots in China The Island of Seven Cities unveils the first tangible proof that the Chinese were in the New World before Columbus Evidence that Cape Breton is the site of a Chinese settlement Stone roads with dimensions and building properties that match Chinese roads A ruined city and surrounding farmlands designed in the manner of the Chinese Language and clothing of the indigenous Mi kmaq match Chinese dress Mi kmaq legends tell of a wise man from across the seas who imparted Confucian advice In 1490 before he left for the Americas Christopher Columbus mapped an island that looked like Cape Breton based on the travels of others *Lovecraft Short Stories*, 2018-12-15 Curated new collections H P Lovecraft was the inventor of cosmic horror of weird fiction and the Cthulhu mythology His stories incubated by a lonely and febrile childhood found purchase in the fertile earth of pulp fiction where he inspired many other writers from Robert E Howard to Robert Bloch and Clark Ashton Smith many of whom also collaborated on the several short stories some of which are also included here in this special deluxe edition This title alongside H G Wells Short Stories is a companion volume to our hugely successful Gothic Fantasy series of classic and modern writers □□ Stephen Little, 1999-01-01 A collection of photographs of strangely shaped stones thought to be infused with spiritual power accompanied by a discussion of their influence on Chinese religion art and culture *The Stone Age* Edwin Oliver James, 1927 **The Seven Ages of an East Lothian Parish** Marshall Buchanan Lang, 1929 Officially known as Whittingham **The Dragons of Sara Sara** Robert A. Chalmers, 2013-12-28 Innocence and terror meet in a fast paced evocation of a time far in the future Set among momentous happenings Robert Chalmers catches a society on the brink of a new age In an age far ahead in time two young people from very different walks of life find themselves thrown together in a battle to save the world from darkness The Lord of Darkness is stirring and the forces of light are awakened The two are inextricably linked when they forge a pact to fight together for the good of all As the young friends grow and mature a new role emerges for each as they gather forces about themselves ahead of the storm Every separate voice is perfectly judged reverberating in the mind's ear and leaving a tense echo as the battle looms Pick up your copy by Robert Chalmers and start reading now **The Way to Immortality** Bei Hai, 2019-11-27 Inside the second hand phone Chen Hao bought there was actually a Heavenly Court's welfare group various
