

The Benedictines In The Middle Ages Monastic Orders

Scott C. Dulebohn

The Benedictines In The Middle Ages Monastic Orders:

The Benedictines in the Middle Ages James G. Clark, 2014-11-20 The men and women that followed the 6th century customs of Benedict of Nursia c 480 c 547 formed the most enduring influential numerous and widespread religious order of the Latin Middle Ages This text follows the Benedictine Order over 11 centuries from their early diaspora to the challenge of continental reformation

Medieval Monasticism Clifford Hugh Lawrence, 1989 For a thousand years the monasteries and religious orders played a major role in the society economy and culture of the west This book traces the Western monastic tradition in its social context from its fourth century origins in the deserts of Egypt and Syria through to the many and various forms of religious life it assumed during the Middle Ages This new edition contains new work on monastic studies and the relationship between the cloister and the schools on the controversy between the Benedictines and the spokesmen of the reformed monasticism of the twelfth century and on the social composition of the nunneries and the particular problems that confronted women in the religious life

Medieval Monasticism C.H. Lawrence, Janet Burton, 2023-09-28 Medieval Monasticism traces the Western Monastic tradition from its fourth century origins in the deserts of Egypt and Syria through the many and varied forms of religious life it assumed during the Middle Ages It explores the relationship between monasteries and the secular world around them For a thousand years the great monastic houses and religious orders were a prominent feature of the social landscape of the West and their leaders figured as much in the political as on the spiritual map of the medieval world In this book many of them together with their supporters and critics are presented to us and speak their minds to us We are shown for instance the controversy between the Benedictines and the reformed monasticism of the twelfth century and the problems that confronted women in religious life A detailed glossary offers readers a helpful vocabulary of the subject This fifth edition has been revised by Janet Burton to include an updated bibliography and an introduction which discusses recent trends in monastic studies including reinterpretations of issues of reform and renewal new scholarship on religious women and interdisciplinary and multidisciplinary approaches This book is essential reading for both students and scholars of the medieval world

Abbatial Authority and the Writing of History in the Middle Ages Benjamin Pohl, 2023-08-22 This book argues that abbatial authority was fundamental to monastic historical writing in the period c 500 1500 Writing history was a collaborative enterprise integral to the life and identity of medieval monastic communities but it was not an activity for which time and resources were set aside routinely Each act of historiographical production constituted an extraordinary event one for which singular provision had to be made workers and materials assigned time carved out from the monastic routine and licence granted This allocation of human and material resources was the responsibility and prerogative of the monastic superior Drawing on a wide and diverse range of primary evidence gathered from across the medieval Latin West this book is the first to investigate systematically how and why abbots and abbesses exercised their official authority and resources to lay the foundations on which their communities

historiographical traditions were built by themselves and others It showcases them as prolific authors patrons commissioners project managers and facilitators of historical narratives who not only regularly put pen to parchment personally but also and perhaps more importantly enabled others inside and outside their communities by granting them the resources and licence to write Revealing the intrinsic relationship between abbatial authority and the writing of history in the Middle Ages with unprecedented clarity Benjamin Pohl urges us to revisit and revise our understanding of monastic historiography its processes and its protagonists in ways that require some radical rethinking of the medieval historian s craft in communal and institutional contexts The Cambridge History of Medieval Monasticism in the Latin West Alison I. Beach, Isabelle

Cochelin, 2020-01-09 Monasticism in all of its variations was a feature of almost every landscape in the medieval West So ubiquitous were religious women and men throughout the Middle Ages that all medievalists encounter monasticism in their intellectual worlds While there is enormous interest in medieval monasticism among Anglophone scholars language is often a barrier to accessing some of the most important and groundbreaking research emerging from Europe The Cambridge History of Medieval Monasticism in the Latin West offers a comprehensive treatment of medieval monasticism from Late Antiquity to the end of the Middle Ages The essays specially commissioned for this volume and written by an international team of scholars with contributors from Australia Belgium Canada England France Germany Italy the Netherlands Spain Switzerland and the United States cover a range of topics and themes and represent the most up to date discoveries on this topic The Encyclopaedia Britannica , 1929 *The Encyclopaedia Britannica* James Louis Garvin, Franklin Henry Hooper, Warren E.

Cox, 1929 **The Religious Orders in Pre-Reformation England** James G. Clark, 2002 Essays provide evidence for the vigour and involvement of religious orders in the years immediately prior to the reformation Encyclopaedia Britannica , 1929 *The Encyclopædia Britannica* James Louis Garvin, Franklin Henry Hooper, Warren Earle Cox, 1929 *Encyclopedia of Monasticism* William M. Johnston, 2013-12-04 The two volume Encyclopedia of Monasticism describes the monastic traditions of both Christianity and Buddhism with more than 600 entries on important monastic figures of all periods and places surveys of countries and localities and topical essays covering a wide range of issues e g art behavior economics liturgy politics theology and scholarship Coverage encompasses not only geography and history worldwide but also the contemporary dilemmas of monastic life Recent upheavals in certain countries are highlighted Korea Russia Sri Lanka etc Topical essays subtitled Christian Perspectives and Buddhist Perspectives explore in imaginative fashion comparisons and contrasts between Christian and Buddhist monasticism Encyclopedia of Monasticism also includes more than 500 color and black and white illustrations covering all aspects of monastic life art and architecture **The Classical Tradition : Greek and Roman Influences on Western Literature** Gilbert Highet, 1949-12-31 A reissue in paperback of a title first published in 1949 **Bible History** Richard Gilmour, 1894 **Ecclesiastical Lordship, Seigneurial Power and the Commercialization of Milling in Medieval England** Adam Lucas, 2016-04-29 This is the first detailed study of the role of

the Church in the commercialization of milling in medieval England Focusing on the period from the late eleventh to the mid sixteenth centuries it examines the estate management practices of more than thirty English religious houses founded by the Benedictines Cistercians Augustinians and other minor orders with an emphasis on the role played by mills and milling in the establishment and development of a range of different sized episcopal and conventual foundations Contrary to the views espoused by a number of prominent historians of technology since the 1930s the book demonstrates that patterns of mill acquisition innovation and exploitation were shaped not only by the size wealth and distribution of a house s estates but also by environmental and demographic factors changing cultural attitudes and legal conventions prevailing and emergent technical traditions the personal relations of a house with its patrons tenants servants and neighbours and the entrepreneurial and administrative flair of bishops abbots priors and other ecclesiastical officials

The Culture of Medieval English Monasticism James G. Clark, 2007 Examinations of the culture artistic material musical of English monasteries in the six centuries between the Conquest and the Dissolution The cultural remains of England s abbeys and priories have always attracted scholarly attention but too often they have been studied in isolation appreciated only for their artistic codicological or intellectual features and not for the insights they offer into the patterns of life and thought the underlying norms values and mentalities of the communities of men and women which made them Indeed the distinguished monastic historian David Knowles doubted there would ever be sufficient evidence to recover the mentality of the ordinary cloister monk These twelve essays challenge this view They exploit newly catalogued and newly discovered evidence manuscript books wall paintings and even the traces of original monastic music to recover the cultural dynamics of a cross section of male and female communities It is often claimed that over time the cultural traditions of the monasteries were suffocated by secular trends but here it is suggested that many houses remained a major cultural force even on the verge of the Reformation James G Clark is Professor of History at the University of Exeter Contributors DAVID BELL ROGER BOWERS JAMES CLARK BARRIE COLLETT MARY ERLER G R EVANS MIRIAM GILL JOAN GREATREX JULIAN HASELDINE J D NORTH ALAN PIPER AND R M THOMSON

The Benedictines David Knowles, 2009-05-12 What then are the particular aspects moral and intellectual of the full Christian life that are emphasized by Benedictines in the form of the life they lead It is an objective form of life sane strong unchanging from year to year a life of work and liturgical prayer which can be seen and heard lived in conditions which aim at representing all that is best in the basic family life of Christianity aided by all human courtesies reverences and affections It is nothing secret or esoteric nor an impossibility but an ordered form of ordinary life It is a religious life which is free from all that is doctrinaire or experimental It is the Christian life writ large for all to see with all the non Christian elements removed that are normally interwoven with the devout life as lived in the world The message of Saint Benedict is simple and direct Work obey keep silent praise God in common and if you wish to pray to Him alone enter the church and pray
