Guide to the Microfiche Edition Johannes Eltzschig,Michael Walter,2011-09-12 No detailed description available for Guide to the Microfiche Edition **A Defence of the Reformation** Jean Claude,1815 **The Defence of Terrorism (Routledge Revivals)** Leon Trotsky,2014-06-17 The Defence of Terrorism originally written in 1920 on a military train during the Russian Civil War represents one of Trotsky s most wide ranging and original contributions to the debates that dominated the 1920s and 30s Trotsky s intention is far away from any thought of defending terrorism in general Rather he seeks to promote an historical justification for the Revolution by demonstrating that history has set up the revolutionary violence of the progressive class against the conservative violence of the outworn classes The argument is developed in response to the influential Marxist intellectual Karl Kautsky who refuted Trotsky s militarisation of labour and Lenin s wholesale rejection of a bloodless revolution The introduction written for the second edition of 1935 presents Trotsky s reflections on the similarities between Kautsky and the burgeoning British Labour Party specifically it recapitulates Trotsky s belief that revolution conducted according to the norms of Parliamentarianism is no revolution at all **Defence of the Hebrew Grammar of Gesenius** Thomas Jefferson Conant,1847 **Essay on human understanding concluded.**

Standard and Holiday McClurg, Firm, Booksellers, Chicago,1899 The Next War in the Air Brett Holman,2016-02-17 In the early twentieth century the new technology of flight changed warfare irrevocably not only on the battlefield but also on the home front As prophesied before 1914 Britain in the First World War was effectively no longer an island with its cities attacked by Zeppelin airships and Gotha bombers in one of the first strategic bombing campaigns Drawing on prewar ideas about the fragility of modern industrial civilization some writers now began to argue that the main strategic risk to Britain was not invasion or blockade but the possibility of a sudden and intense aerial bombardment of London and other cities

which would cause tremendous destruction and massive casualties The nation would be shattered in a matter of days or weeks before it could fully mobilize for war Defeat decline and perhaps even extinction would follow This theory of the knock out blow from the air solidified into a consensus during the 1920s and by the 1930s had largely become an orthodoxy accepted by pacifists and militarists alike But the devastation feared in 1938 during the Munich Crisis when gas masks were distributed and hundreds of thousands fled London was far in excess of the damage wrought by the Luftwaffe during the Blitz in 1940 and 1941 as terrible as that was The knock out blow then was a myth But it was a myth with consequences For the first time *The Next War in the Air* reconstructs the concept of the knock out blow as it was articulated in the public sphere the reasons why it came to be so widely accepted by both experts and non experts and the way it shaped the responses of the British public to some of the great issues facing them in the 1930s from pacifism to fascism Drawing on both archival documents and fictional and non fictional publications from the period between 1908 when aviation was first perceived as a threat to British security and 1941 when the Blitz ended and it became clear that no knock out blow was coming *The Next War in the Air* provides a fascinating insight into the origins and evolution of this important cultural and intellectual phenomenon Britain's fear of the bomber
