The Contract Scorecard Dr Sara Cullen, 2012-09-28 Adoption and use of a contract scorecard demonstrates a maturing ability to manage commercial outsourcing arrangements The process of designing the scorecard helps you nail down the key outcomes and avoid lack of focus inconsistent objectives hidden costs indifferent service and deteriorating relationships with your contract partners Sara Cullen s The Contract Scorecard will help you design and drive successful contracts It offers a systematic guide based on practical advice and examples one that explains the Contract Scorecard concept and demonstrates crucial implementation activities such as The development of performance

measures that work Sound Service Level Agreements that make obligations clear A Governance Charter that ensures both parties will adopt successful management techniques An upfront investment in your contracts from a commercial rather than legal perspective is probably the single most influential activity you can undertake one that will ensure your outsourcing relationships have clear business goals as the focus of the deal Reading a copy of Sara Cullen s The Contract Scorecard should be the first step in that investment

The Semantic Web - ISWC 2005 Yolanda Gil, Enrico Motta, V. Richard Benjamins, Mark Musen, 2005-10-17 A little over a decade has passed since the release of the first Netscape browser In 1995 the World Wide Web was viewed largely as an academic curiosity Now of course the Web is an integral part of the fabric of modern society It is impossible to imagine science education commerce or government functioning without the Web We take the Web for granted and often assume that Internet connectivity is guaranteed to all of us as a birthright Although the Web indeed has become world wide and has lost a bit of its original aura as a consequence of its ubiquity a burgeoning community of researchers and practitioners continues to work toward the next generation of the Web a Web where information will be stored in a machine processable form and where intelligent computer based agents will access and automatically combine myriad services on the Internet of the kind that are now available only to people interacting directly with their Web browsers
