The Botany Of Desire:

The Botany of Desire Michael Pollan, 2001-06-12 The book that helped make Michael Pollan the New York Times bestselling author of *Cooked* and *The Omnivore's Dilemma* one of the most trusted food experts in America In 1637 one Dutchman paid as much for a single tulip bulb as the going price of a town house in Amsterdam Three and a half centuries later Amsterdam is once again the mecca for people who care passionately about one particular plant though this time the obsessions revolves around the intoxicating effects of marijuana rather than the visual beauty of the tulip How could flowers of all things become such objects of desire that they can drive men to financial ruin In *The Botany of Desire* Michael Pollan argues that the answer lies at the heart of the intimately reciprocal relationship between people and plants In telling the stories of four familiar plant species that are deeply woven into the fabric of our lives Pollan illustrates how they evolved to satisfy humankind's most basic yearnings and by doing so made themselves indispensable For just as we've benefited from these plants the plants in the grand co evolutionary scheme that Pollan evokes so brilliantly have done well by us The sweetness of apples for example induced the early Americans to spread the species giving the tree a whole new continent in which to blossom So who is really domesticating whom Weaving fascinating anecdotes and accessible science into gorgeous prose Pollan takes us on an absorbing journey that will change the way we think about our place in nature

The Botany of Desire Michael Pollan, 2003 Pollan tells the story of four domesticated species the apple the tulip marijuana and the potato and describes how each has thrived by satisfying humankind's most basic desires

The Botany of Desire Michael Pollan, 2008 Every schoolchild learns about the mutually beneficial dance of honeybees and flowers the bee collects the nectar and pollen to make honey and in the process spreads the flowers genes far and wide This book demonstrates how people and plants have formed a similarly reciprocal arrangement He links four fundamental desires sweetness beauty intoxication and control with the plants that satisfy them the apple the tulip marijuana and the potato In telling the stories of four familiar species Pollan illustrates how the plants have evolved to satisfy humankind's most basic yearnings And just as we've benefited from these plants these plants have also benefited at least as much from their association with us So who is really domesticating whom from Publisher

The Botany of Desire Young Readers Edition Michael Pollan, 2023-05-09 By the bestselling author of *The Omnivore's Dilemma* this is Michael Pollan's ingenious companion book about the surprising and close relationship between people and plants In this entertaining young readers edition of the environmental studies classic Michael Pollan demonstrates how people and domesticated plants have formed a reciprocal relationship He links four fundamental human desires sweetness beauty energy and control with the plants that satisfy them the apple the tulip coffee and the potato In telling the stories of four familiar species Pollan illustrates how the plants have evolved to satisfy humankind's most basic yearnings And just as we've benefited from these plants we have also helped them to thrive

This Is Your Mind on Plants Michael Pollan,2022-07-19 The instant New York Times bestseller A Washington Post Notable Book One of NPR s Best Books of the Year Expert storytelling Pollan masterfully elevates a series of big questions about drugs plants and humans that are likely to leave readers thinking in new ways New York Times Book Review From 1 New York Times bestselling author Michael Pollan a radical challenge to how we think about drugs and an exploration into the powerful human attraction to psychoactive plants and the equally powerful taboos Of all the things humans rely on plants for sustenance beauty medicine fragrance flavor fiber surely the most curious is our use of them to change consciousness to stimulate or calm fiddle with or completely alter the qualities of our mental experience Take coffee and tea People around the world rely on caffeine to sharpen their minds But we do not usually think of caffeine as a drug or our daily use as an addiction because it is legal and socially acceptable So then what is a drug And why for example is making tea from the leaves of a tea plant acceptable but making tea from a seed head of an opium poppy a federal crime In This Is Your Mind on Plants Michael Pollan dives deep into three plant drugs opium caffeine and mescaline and throws the fundamental strangeness and arbitrariness of our thinking about them into sharp relief Exploring and participating in the cultures that have grown up around these drugs while consuming or in the case of caffeine trying not to consume them Pollan reckons with the powerful human attraction to psychoactive plants Why do we go to such great lengths to seek these shifts in consciousness and then why do we fence that universal desire with laws and customs and fraught feelings In this unique blend of history science and memoir as well as participatory journalism Pollan examines and

experiences these plants from several very different angles and contexts and shines a fresh light on a subject that is all too often treated reductively as a drug whether licit or illicit But that is one of the least interesting things you can say about these plants Pollan shows for when we take them into our bodies and let them change our minds we are engaging with nature in one of the most profound ways we can Based in part on an essay published almost twenty five years ago this groundbreaking and singular consideration of psychoactive plants and our attraction to them through time holds up a mirror to our fundamental human needs and aspirations the operations of our minds and our entanglement with the natural world

Second Nature Michael Pollan, 2018-09-01 One of the distinguished gardening books of our time from the 1 New York Times bestselling author of *The Omnivore's Dilemma* USA Today Chosen by the American Horticultural Society as one of the 75 greatest books ever written about gardening After Michael Pollan bought an old Connecticut dairy farm he planted a garden and attempted to follow Thoreau's example do not impose your will upon the wilderness the woodchucks or the weeds That ethic did not of course work But neither did pesticides or firebombing the woodchuck burrow So Michael Pollan began to think about the troubled borders between nature and contemporary life The result is a funny profound and beautifully written book in the finest tradition of American nature writing It inspires thoughts on the war of the roses sex and class conflict in the garden virtuous composting the American lawn seed catalogs and the politics of planting a tree A blend of meditation autobiography and social history *Second Nature* from the renowned author of *The Botany of Desire* *In Defense of Food* and other bestsellers is as delicious a meditation on one man's relationship with the Earth as any you are likely to come upon The New York Times Book Review Usually when Americans have wanted to explore their relationship to nature they've gone to the wilderness or the woods Michael Pollan went to the garden instead and he's returned with a quirky and pleasing book Annie Dillard A joy to read Los Angeles Times The Bulletin, 2001 **Frontiers**, 2012 **100 Unexpected**

Statements about the Botany of Desire Max Masey, 2013-04 In this book we have hand picked the most sophisticated unanticipated absorbing if not at times crackpot original and musing book reviews of *The Botany of Desire* Don't say we didn't warn you these reviews are known to shock with their unconventionality or intimacy Some may be startled by their biting sincerity others may be spellbound by their unbridled flights of fantasy Don't buy this book if 1 You don't have nerves of steel 2 You expect to get pregnant in the next five minutes 3 You've heard it all **The Herb Quarterly**, 2003 **The Garden**, 2003 **Harper's**, 2002 Talking Leaves, 2000 The New Humanities Reader Richard Earl Miller, Kurt Spellmeyer, 2005 The New Humanities Reader presents 32 challenging and important essays from diverse fields that address current global issues The authors contend that there is a crisis within the humanities today due to specialization within narrow fields of scholarship resulting in a higher education system that produces students who lack the general cross disciplinary knowledge needed to better understand today's complex world The selections encourage students to synthesize and think critically about ideas and research formerly kept apart This approach challenges readers to resist mimetic thinking

and instead creatively connect ideas to help them understand and retain what they read Through this process of reading discussing and writing students develop the analytical skills necessary to become informed citizens Focused on today s issues the selections represent both well known nonfiction authors and newly published writers and are drawn from such periodicals as The New Yorker and Natural History and from best selling books including Reading Lolita in Tehran Fast Food Nation and Into the Wild Students will be engaged by reading and rereading analyzing and working with these selections not simply because they are models of good writing but because they are also deeply thought provoking pieces that invite readers to respond
