Doner, Gregory W. Noble, John Ravenhill, 2021-04-21 Despite starting from equally low levels of performance and initially similar strategies the seven most prominent auto industries in East Asia outside Japan have ended up with strikingly different types and levels of development This book argues that factors such as market size and economic policies alone cannot explain this puzzle Instead the book highlights the significance of two sets of factors the very different institutional capabilities required to formulate and carry out policies and the political pressures that help to explain the emergence of these capabilities **Japan Directory** ,1996 Global Power and Local Struggles in Developing Countries ,2022-12-12 The volume challenges dominant narratives of progress with a rich range of investigations of local struggles from the Global south which are based on original ethnographic research The chapters take a point of departure in ideas and concepts developed by the pioneering anthropologist Eric R Wolf in Europe and the People Without History and emphasize the relevance and usefulness of applying Wolf to contemporary contexts As such the collection contributes to knowledge of dynamic relationships between local agency in the Global south and broader political and economic processes that make people without history This shows global power as both excluding local groups at the same time as conditioning local struggles and the forms that social organization takes Contributors are Paul Stacey Joshua Steckley Nixon Boumba Marylynn Steckley Ismael Garc a Col n Inge Merete Hougaard Gustavo S Azenha Ioannis Kyriakakis Raquel Rodrigues Machaqueiro Tirza van Bruggen and Masami Tsujita **Official Gazette of the United States Patent and Trademark Office** ,1996 **Official Gazette of the United States Patent and Trademark Office** United States.
