legal form of cooperation far outpaced judicial and legislative developments at both the state and federal levels resulting in a legal and political struggle to redefine the place of agriculture in the industrial market Woeste shows that farmers were adept at both borrowing such legal forms as the corporate trust for their own purposes and obtaining legislative recognition of the new cooperative style In the process however the first rule of capitalism every person for him or herself trumped the traditional principle of cooperation After 1922 state and federal law wholly endorsed cooperation s new form Indeed says Woeste because of its corporate roots this model of cooperation fit so neatly with the regulatory paradigms of the first half of the twentieth century that it became an essential policy of the modern administrative state Report of the Department of the Interior ...
