| Why is it important to fulfill our obligations of citizenship?               | When citizens meet their obligations to the government, they are making the United States a safer and better place to live. By following the law and not committing crimes, communities are less dangerous places. By paying taxes, citizens are making sure that the government can afford to provide services that benefit the general public. By defending the nation if asked to do so, citizens are making sure that those who live in the United States are protected from enemies who may hurt us. By serving on juries, citizens are making sure that the right to a trial by jury is protected. |
| Why is it important for citizens to be active participants in the community? | Community service helps the common good. It benefits everyone when a citizen sees a need in his or her community and takes that extra step to find the solution.                                                                                                                                                                                                                                                                                                                                                                                                                                         |

vital and is closely related to brands and consumption especially in a vibrant 21st century Asian city Hong Kong with its free market economy and urban bustle is a perfect place to observe this in action But Hong Kong is also deeply conservative in many ways especially with regard to family values and the presence of overtly sexualized images in advertising sits uncomfortably with the values of modesty and traditional sexual mores that exist there Young girls are also discovering their identities like any other groups of girls in the world and often this journey will not be easy This book deals with media and the extent to which media representations influence girls in Hong Kong and how they are affected by this ubiquitous presence Through the quantitative and qualitative studies readers could examine and understand how tween girls and teen girls in Hong Kong interact with the media and how they interpret the messages from the media The observations found in the studies are also valuable to parents educators and communication scholars to better understand the influence of media on the value orientations of girls and we hope that responsible marketers and educators can use these research findings to communicate with girls in ways which can improve their well being Published by City University of Hong Kong Press
