

ENPC Emergency Nurse Pediatric Course 2024-2025 Study Guide

Chapter 1: Children Around the World

1. What are the most common pediatric presentations where you work?
2. What health promotion initiatives are needed in your area?

Chapter 2: Preparing for Pediatric Emergencies

1. How can health promotion and injury prevention topics be incorporated into the routine assessment and care of pediatric patients in the emergency department?
2. How do you incorporate patient- and family-centered care concepts into your care of pediatric patients?
3. Does your facility have a Pediatric Emergency Care Coordinator?
4. What opportunities exist at your facility to improve pediatric readiness and care for pediatric patients?
5. Does your facility receive children needing a higher level of care, or does your facility typically transfer children requiring a higher level of care? Are there formal transfer agreements in place? What are the responsibilities of the transferring and receiving facilities?
6. In most cases, consent for evaluation and treatment of minors must be obtained from the parent or legal guardian. In your jurisdiction, are there exceptions as to when a minor needs a parent/guardian to provide consent? What is your facility's policy for obtaining consent when a minor is unaccompanied by their legal guardian?

Chapter 3: Pediatric Differences

1. How can understanding the stages of development help you when caring for pediatric patients of varying ages?
 - a. Airway
 - i. Infants up to around 6 months prefer to breathe out of their noses. If nose gets obstructed, they are more likely to get hypoxic.
 - ii. Larger tongue relative to oral pharyngeal cavity, easier to obstruct
 - iii. Child has weak cartilage rings leading to airway collapse with neck flexion or increased inspiratory effort. (think of a straw)
 - iv. Large head can cause airway occlusion when supine. Placing pad under neck relieves this problem.
 - v. Short neck = slight flexion of neck can easily extubate.
 - b. Breathing
 - i. Retractions + respiratory distress
