mascot is that if you fail to grasp the danger of these things you'll undoubtedly place major obstacles between you and your career goals. Starting of course with your quest to pass the licensing exam. Thus the goal of this book is twofold. First and foremost I want to help you pass the exam and do so by a wide margin. I don't want it to be even close. I want your state's insurance commissioner to be so blown away by your score that he takes your exam home and hangs it up on his refrigerator. But second I want this book to become the basis for your career. I want it to help shape the way you approach insurance sales so that you not only help protect others against loss but protect yourself and your hard earned license as well. Even more I want it to protect you against an average career. I want this book to help insure your financial success. Interested? If you are then you're in for some exciting lessons about insurance theory, products and sales. I'll share with you both the practical and conceptual knowledge you need to get to where you want to go.
