these more marketable representations in regard to current debates over immigration With particular attention to what these representations reveal about the place and role of Latinos in the contemporary politics of race Latino Spin highlights the realities they skew and the polarization they effect between Latinos and other minorities and among Latinos themselves along the lines of citizenship and class Finally by considering Latinos in all their diversity including their increasing financial and geographic disparities D vila can present alternative and more empowering representations of Latinidad to help attain true political equity and intraracial coalitions

Culture Works

Arlene Dávila,2012-04-16 Culture Works addresses and critiques an important dimension of the work of culture an argument made by enthusiasts of creative economies that culture contributes to the GDP employment social cohesion and other forms of neoliberal development While culture does make important contributions to national and urban economies the incentives and benefits of participating in this economy are not distributed equally due to restructuring that neoliberal policies have wrought from the 1980s on as well as long standing social structures such as racism and classism that breed inequality The cultural economy promises to make life better particularly in cities but not everyone can take advantage of it for decent jobs Exposing and challenging the taken for granted assumptions around questions of space value and mobility that are sustained by neoliberal treatments of culture Culture Works explores some of the hierarchies of cultural workers that these engender as they play out in a variety of settings from shopping malls in Puerto Rico and art galleries in New York to tango tourism in Buenos Aires Noted scholar Arlene D vila brilliantly reveals how similar dynamics of space value and mobility come to bear in each location inspiring particular cultural politics that have repercussions that are both geographically specific but also ultimately global in scope
