The World's End A Thirty Year Quest For Justice:

The World's End Tom Wood, David Johnston, 2008 investigations and never gave up Book Jacket **Homicide** Sara Skott, 2022-07-15 Homicide Towards a Deeper Understanding offers an in depth analysis into the phenomenon of homicide examining different types of homicide and how these types have changed over time Based on original analysis on Scottish data this book draws upon an international body of research to contextualize the findings in a global setting filling an important gap in the homicide literature pertaining to the relationship between trends in homicide and violence Examining homicide from gendered as well as Gothic perspectives this book also relates homicide to novel critical theory The book covers a thorough description of different types of homicide including sexual homicide and provides an explorative approach to the identification of homicide subtypes The book also explores how these findings relate to current homicide theory and proposes a new theoretical framework to gain a deeper understanding of this crime The main argument of the book is that if homicide and its relationship to wider violence is to be fully understood theoretically as well as empirically this crime needs to be disaggregated in a way that reflects the underlying data Overall this book therefore fills an important gap in criminological literature providing an in depth understanding of one of the most serious violent crimes **The World's End** Tom Wood, 2013-04-01 The authors presents an account of the murder of two young women Helen Scott and Christine Eadie who died in October 1977 and of the thirty year investigation that followed *The Quest for Justice* Menno Boldt, J. Anthony Long, 1985-12-15 This collection of many voices develops more deeply and exhaustively the issues raised in the editors earlier volume Pathways to Self Determination It contains some twenty three papers from representatives of the aboriginal people s organizations of governments and of a variety of academic disciplines along with introductions and an epilogue by the editors and appendices of the key constitutional documents from 1763 The contributors represent a broad cross section of tribal geographic and organizational perspectives They discuss constitutional questions such as land rights the concerns of Metis non status Indians and Inuit and native rights in broad contexts historical legal constitutional political regional and international The issue of aboriginal rights and of what these rights mean in terms of land and sovereignty has become increasingly important on the Canadian political agenda The constitutional conferences between government and aboriginal peoples have revealed the gulf between what each side means by aboriginal rights for the Indians these rights are meaningless without sovereign self government an idea the federal and provincial governments are not willing to entertain Somewhere in the middle lies the concept of nationhood status Ultimately the aboriginal peoples are asking for justice from the dominant society around them if it is denied or felt to be denied the editors conclude the consequences for the Canadian self concept would be costly and debilitating The twenty four contributors provide a find guide to this profound and complex problem whose solution depends on our understanding and our political wisdom **Act Justly** Samuel Wells, 2022-09-27 Act Justly is the final book in the trilogy begun by Walk Humbly and Love Mercy together forming an introduction to Christian

faith and life Taking their inspiration from a question posed in the Old Testament What does the Lord require of you To act justly and to love mercy and to walk humbly with your God each book in the series offers a practical ethic for living that is rooted in timeless wisdom Focusing on two of the most outstanding justice issues of our day racial and climate injustice as well as individual stories of injustice Act Justly offers practical ways of thinking about justice and cultivating habits of justice to foster the life of God so that injustice can be challenged and the world can be changed **The Connecticut Prison**

World Judith Keene, Elizabeth Rezniewski, 2018-03-27 The challenge for historians as for individuals and nations has been to make sense of the Cold War past without recourse to the obsolete frameworks of a dichotomous world The editors of Seeking Meaning Seeking Justice in the Post Cold War World Judith Keene and Elizabeth Rezniewski have brought together contributions that address the diverse modes by which the Cold War is being assessed with a major focus on countries on the periphery of the Cold War confrontation These approaches include developments in historiography as new intellectual and cultural frame are applied to old debates Authors also consider the universal principles and moral discourses including that of human rights on which judgements have been based and judicial processes instigated and the forms of memorialisation that have sought to come to terms and perhaps achieve reconciliation with a Cold War past Contributors are Ann Curthoys Philip Deery Katherine Hite Michael Humphrey Su kyong Hwang Perry Johansson Judith Keene Betty O'Neill Peter Read Elizabeth Rezniewski Estela Valverde Adrian Vickers and Marivic Wyndham **Basque History Of The World** Mark Kurlansky, 2011-03-11 They are a mythical people almost an imagined people writes Mark Kurlansky Settled in a corner of France and Spain in a land marked on no maps except their own the Basques are a nation without a country whose ancient and dramatic story illuminates Europe's own saga Where did they come from Signs of their civilization exist well before the

arrival of the Romans in 218 B C and their culture appears to predate all others in Europe Their mysterious and forbidden tongue Euskera is related to no other language on Earth The Basques have stubbornly defended their unique culture against the Celts the Romans the Visigoths and Moors the kings of Spain and France Napoleon Franco the modern Spanish state and the European Union Yet as much as their origins are obscure the Basques contributions to world history have been clear and remarkable Early explorers they made fortunes whaling before the year 1000 and became the premier cod fishermen in Europe after discovering Canada s Grand Banks Juan Sebastian de Elcano a Basque was the first man to circumnavigate the globe in 1522 Their influence has also been felt in religion as founders of the Jesuits in 1534 and in business as leaders of the Industrial Revolution in southern Europe Mark Kurlanky s passion for the Basque people and his exuberant eye for detail shine throughout this fascinating history Like his acclaimed *Cod* it blends human economic political literary and culinary history into a rich and heroic tale

The Misery of International Law John Linarelli, Margot E Salomon, Muthucumaraswamy Sornarajah, 2018-03-23 Poverty inequality and dispossession accompany economic globalization Bringing together three international law scholars this book addresses how international law and its regimes of trade investment finance as well as human rights are implicated in the construction of misery and how international law is producing reproducing and embedding injustice and narrowing the alternatives that might really serve humanity Adopting a pluralist approach the authors confront the unconscionable dimensions of the global economic order the false premises upon

which they are built and the role of international law in constituting and sustaining them Combining insights from radical critiques political philosophy history and critical development studies the book explores the pathologies at work in international economic law today International law must abide by the requirements of justice if it is to make a call for compliance with it but this work claims it drastically fails do so In a legal order structured around neoliberal ideologies rather than principles of justice every state can and does grab what it can in the economic sphere on the basis of power and interest legally so and under colour of law This book examines how international law on trade and foreign investment and the law and norms on global finance has been shaped to benefit the rich and powerful at the expense of others It studies how a set of principles in the form of a New International Economic Order NIEO that could have laid the groundwork for a more inclusive international law without even disrupting its market orientation were nonetheless undermined As for international human rights law it is under the terms of global capitalism that human rights operate Before we can understand how human rights can create more just societies we must first expose the ways in which they reflect capitalist society and how they assist in reproducing the underlying terms of immiseration that will continue to create the need for human rights protection This book challenges conventional justifications of economic globalization and eschews false choices It is not about whether one is for or against international trade foreign investment or global finance The issue is to resolve how if we are to engage in trade investment and finance we do so in a manner that is accountable to persons whose lives are affected by international law The deployment of human rights for their part must be considered against the ubiquity of neoliberal globalization under law and not merely as a discrete benevolent response to it
