God, the Moon and the Astronaut Jacques Arnould, 2016-12-31 A cloth spread under an apple tree can catch only apples wrote Antoine de Saint Exupery in

Terre des hommes Land of Men English title Wind Sand and Stars and a cloth spread under stars can catch only stardust What was most marvellous was that there standing on the planet's rounded back between this magnetic cloth and those stars was a man's consciousness in which that star fall could be reflected as in a mirror And a few pages further on he writes I was but a mere mortal lost between sand and stars aware simply of the sweet pleasure of breathing From the author of those lines to the writer of the first well known verses of the Bible In the beginning God created the heaven and the earth stretch centuries of time and an intellectual and cultural abyss as well What could there be in common between the pilot of the first air route from Toulouse to Dakar and the direct descendants of Semitic nomads Certainly not much but for those star pierced nights that deserts alone can offer for contemplation combined with the tormenting question what a thing is man confronted by the cosmos magnificent and terrible at the same time This question has been haunting humanity from the beginning and gnaws at each of us Who am I Where did I come from Where does my destiny lie To these questions the desert dwellers and the aviator lost like all their brothers in humanity have given the same response Certainly we are mortal beings lost in the middle of the cosmos as in a desert crushed by the weight of reality as by the immense celestial vault And yet we are unique singular irreplaceable we are not less than the consciousness of the world and believers among them will say we are even created in the image of God Is that courage or lack of awareness pretentiousness or faith **Bookwise** Sharon

Parsons,2001 With a balance of fiction and non fiction text types and genres Bookwise is carefully graded and organised into five cross curricular strands encouraging links to other subjects The full colour readers are accompanied by Teacher's Guides and Resource Sheets to help you get the most out of your Guided Reading and Writing sessions *There Was An Old*

NASA's First Space Shuttle Astronaut Selection

David J. Shayler, Colin Burgess, 2020-07-10 Unofficially they called themselves the TFNG or the Thirty Five New Guys Officially they were NASA's Group 8 astronauts selected in January 1978 to train for orbital missions aboard the Space Shuttle Prior to this time only pilots or scientists trained as pilots had been assigned to fly on America's spacecraft but with the advent of the innovative winged spacecraft the door was finally opened to non pilots including women and minorities In all 15 of those selected were categorised as Pilot Astronauts while the other 20 would train under the new designation of Mission Specialist Altogether the Group 8 astronauts would be launched on a total of 103 space missions some flying only once while others flew into orbit as many as five times Sadly four of their number would perish in the Challenger tragedy in January 1986 In their latest collaborative effort the authors bring to life the amazing story behind the selection of the first group of Space Shuttle astronauts examining their varied backgrounds and many accomplishments in a fresh and accessible way through deep research and revealing interviews Throughout its remarkable 30 year history as the workhorse of NASA's human spaceflight exploration twice halted through tragedy the Shuttle fleet performed with magnificence So too did these 35 men and women swept up in the dynamic thrust and ongoing development of America's Space Shuttle program This book on the Group 8 Astronauts the TFNGs is an excellent summation of the individuals first selected for the new Space Shuttle Program It provides insight into what it took to first get the Space Shuttle flying For any space enthusiast it is a must read Robert L Crippen PLT on STS 1 As a reader I had many moments where long lost memories of the triumph and tragedy of the space shuttle program were brilliantly reawakened at the turn of a page Loved it This is a must have book for every space enthusiast's library TFNG Mission Specialist Astronaut Richard Mike Mullane author of Riding Rockets The Outrageous Tales of a Space Shuttle Astronaut Many of the anecdotes in the book brought back memories of challenges opportunities and a team of men and women who were committed not just to the space program but to one another I've gone back to it several times as a reference source TFNG Steve Hawley 5 time Space Shuttle Mission Specialist Astronaut The TFNG book is incredible and amazingly thorough The detail in the book is awesome It is my go to book for any of the details I've forgotten TFNG Dr Rhea Seddon 3 time Space Shuttle Mission Specialist Astronaut I can't believe how detailed and complete it is FANTASTIC work TFNG Robert L Hoot Gibson 5 time Space Shuttle Pilot Commander and former Chief of the NASA Astronaut Office

Astronaut Corps of Malaysia Captain Faiz Kamaludin, 2017-02-10 On the 10th of October 2007 a young Malaysian was successfully launched into space becoming the nation's first Astronaut Angkasawan The Malaysian

government had secured a seat on board the three seater Soyuz capsule and blasted off from Baikonur cosmodrome in Kazakhstan It was a historic moment for the entire nation We all held our breath as we watched our hopes and dreams ascend on a roaring column of fire towards space The opportunity to go to outer space was given to all Malaysians Through a selection process more than eleven thousand shortlisted candidates chosen from the general public went through nine screening stages to become the sole Angkasawan Herein you will find excerpts and short stories from some of the most colourful and astonishing young candidates and like minded individuals vying for the coveted top spot of Angkasawan Negara The top fifty nine candidates of the astronaut programme are now all members of the Astronautical Association of Malaysia AstroX also known as the Astronaut Corps of Malaysia This is their story and their journey to become the first Malaysian into space

Francis Lyall,Paul B. Larsen,2024-07-19 As space continues to attract substantial public and private investment and has become ever more active the third edition of this book has been updated to cover recent developments This includes the legal bases of UN Resolution 76 3 the Space3030 Agenda which envisages space as a driver of sustainable development and sets out an extensive programme for the future The work also takes account of adaptations and augmentations to basic space treaties It examines the increasing commercialisation of space in areas such as space tourism and space mining for which four states have already adopted relevant legislation The impact of new technologies such as satellite constellations and micro satellites are also scrutinised At a time when space tourism is available to those who can afford it and when the moon will shortly be revisited with a prospect of permanent bases this third edition provides a firm base for the next generation of space lawyers As with previous editions the work draws from governmental international organisational and other authoritative sources as well as the relevant literature in the field The book will be an essential and comprehensive resource for students academics and researchers as well as space agencies governments and space active companies It will also be of value to technical operatives and managers who need to know the legal context within which they work

The Orbital Perspective - An Astronaut's View Ron Garan,2015-11-05 For astronaut Ron Garan living on the International Space Station was a powerful transformative experience one that he believes holds the key to solving our problems here on Earth On space walks and through windows Garan was struck by the stunning beauty of the Earth from space but sobered by knowing how much needed to be done to help this troubled planet And yet on the International Space Station Garan a former fighter pilot was working side by side with Russians who only a few years before were the enemy If fifteen nationalities could collaborate on one of the most ambitious technologically complicated undertakings in history surely we can apply that kind of

cooperation and innovation toward creating a better world That spirit is what Garan calls the orbital perspective Garan vividly conveys what it was like learning to work with a diverse group of people in an environment only a handful of human beings have ever known But more importantly he describes how he and others are working to apply the orbital perspective here at home embracing new partnerships and processes to promote peace and combat hunger thirst poverty and environmental destruction This book is a call to action for each of us to care for the most important space station of all planet Earth You don t need to be an astronaut to have the orbital perspective Garan s message of elevated empathy is an inspiration to all who seek a better world The Orbital Perspective An Astronaut s View is an inspirational knockout After reading this book you will refuse to accept the status quo on our planet WLADIMIR KLITSCHKO PHD UNDISPUTED HEAVYWEIGHT CHAMPION OF THE WORLD AND FOUNDER OF KLITSCHKO MANAGEMENT GROUP It is said that to understand a problem properly you need to get outside of it Ron Garan has certainly done that Ron s focus is on finding new connections and collaborations that cross borders of all sorts that might just allow us to transform the world for the better before we destroy this big blue ball we call home PETER GABRIEL MUSICIAN AND A FOUNDER OF WOMAD WITNESS AND THE ELDERS Ron Garan s breakthrough book is one of a kind Never before has a first hand account of lessons learned in space been applied to first hand humanitarian development work on Earth Ron masterfully synthesizes the big picture view of our world with the ground level details necessary to overcome the barriers to improving life for all people JIMMY WALES FOUNDER OF WIKIPEDIA Astronaut Ron Garan s fabulous book will transport you from the magnificent sense of possibility in outer space to the perspective of a worm on Earth s rich soil and will reassert our fundamental connection to one another in ways that challenge and inspire We all need more of an orbital perspective to remind us that in the end we only have each other JACQUELINE NOVOGRATZ CEO ACUMEN AND AUTHOR OF THE BLUE SWEATER A wonderful call to shift our point of view from local to global from myopic to orbital This consciousness altering ego dissolving mind reconfiguring experience renders our common purpose clear we are the frontal lobes of this Pale Blue Dot and we need to leverage our collective genius to overcome our challenges and unleash our potential Bravo JASON SILVA FILMMAKER MEDIA ARTIST AND HOST OF NATIONAL GEOGRAPHIC CHANNEL S BRAIN GAMES
