Modern Playhouses Alistair Fair, 2018-03-16 Modern Playhouses is the first detailed study of the major programme of theatre building which took place in Britain between the 1950s and the 1980s Drawing on a vast range of archival material much of which had never previously been studied by historians it sets architecture in a wide social and cultural context presenting the history of post war theatre buildings as a history of ideas relating not only to performance but also to culture citizenship and the modern city During this period more than sixty major new theatres were constructed in locations from Plymouth to Inverness Aberystwyth to Ipswich The most prominent example was the National Theatre in London but the National was only the tip of the iceberg Supported in many cases by public subsidies these buildings represented a new kind of theatre conceived as a public service Theatre was ascribed a transformative role serving as a form of productive recreation at a time of increasing affluence and leisure New theatres also contributed to debates about civic pride urbanity and community Ultimately theatre could be understood as a vehicle for the creation of modern citizens in a

consciously modernizing Britain Yet while recognizing as contemporaries did that the new theatres of the post war decades represented change Modern Playhouses also asks how radically different these buildings really were and what their mainstream architecture reveals of the history of modern British architecture and of post war Britain **Project**

Reclaiming and Redefining American Exhibitions of Russian Art Roann Barris,2023-08-23 This book examines the history of American exhibitions of Russian art in the twentieth century in the context of the Cold War Because this history reflects changes in museological theory and the role of governments in facilitating or preventing intercultural cooperation it uncovers a story that is far more complex than a chronological listing of exhibition names and art works Roann Barris considers questions of stylistic appropriations and influences and the role of museum exhibitions in promoting international and artistic exchanges Barris reveals that Soviet and American exchanges in the world of art were extensive and persistent despite political disagreements before during and after the Cold War It also reveals that these early exhibitions communicated contradictory and historically invalid pictures of the Russian or Soviet avant garde The book will be of interest to scholars working in art history museum studies and Russian studies **A Popular Vision** Rachel Barrowman,1991
