Theocratic Service Meeting Schedule 2014:

The Politics of Spiritual Work in Christian Movements Aini Linjakumpu, 2025-08-06 This book examines how three conservative Christian movements Jehovah's Witnesses, Conservative Laestadians and the Old Order Amish attribute spiritual meanings to both paid employment and voluntary work and how work functions as a tool of governance within these communities. A central concept developed in this book is spiritual work used to describe forms of labour imbued with religious meaning and purpose. This book offers a detailed analysis of how religious interpretations of work regulate members' lives and sustain internal power dynamics. By tracing both the theological roots and social consequences of these interpretations, the study demonstrates that work is not merely an economic necessity but a central component of the moral and spiritual order within these movements. Framed by perspectives from the study of power and governance, this book identifies three key dimensions through which governance operates via work: shaping individual spirituality, reinforcing communal belonging and cohesion, and regulating the boundary between the religious community and the outside world.

Foreign Policy of the Islamic Republic of Iran Przemyslaw Osiewicz, 2020-11-29 Providing a well-balanced and impartial perspective on the foreign policy of the Islamic Republic of Iran, this book contributes to a better understanding of the current foreign policy of Iran, especially its internal and external determinants. Combining theoretical and practical aspects, it provides readers with a short analysis of Iranian foreign policy. The first part is dedicated to the Pahlavi era between 1925-1979. The second consists of three chapters covering issues relating to ideological and institutional aspects of Iranian foreign policy after 1979. The last part incorporates eight case studies which best present both regional and global dimensions. This comprehensive study contains a synthesis of views and opinions of commentators and scholars who often represent contradictory perspectives. Serving as a key reference and starting point for further studies, this book will be of interest to students and researchers studying Iranian foreign policy, international relations and Middle Eastern studies.

United States of America Congressional Record, Proceedings and Debates of the 113th Congress Second Session Volume 160 - Part 2, **Dark Shadows** Joanna Lillis, 2018-10-30 **Dark Shadows** is a compelling portrait of Kazakhstan, a country that is little known in the West. Strategically located in the heart of Central Asia, sandwiched between Vladimir Putin's Russia, its former colonial ruler, and Xi Jinping's China, this vast oil-rich state is carving out its place in the world as it contends with its own complex past and present. Journalist Joanna Lillis paints a vibrant picture of this emerging nation through vivid reportage based on 13 years of on-the-ground coverage and travels across the length and breadth of this enigmatic country that lies along the ancient Silk Road and at the geopolitical and cultural crossroads where East meets West. Featuring tales of murder and abduction, intrigue and betrayal, extortion and corruption, this book explores how a president Nursultan Nazarbayev transformed himself into a potentate and the economically struggling state he inherited at the fall of the USSR into a swaggering 21st-century monarchy. A colourful cast of characters brings the politics to life, from strutting oligarch to

sleeping villagers from principled politicians to striking oilmen from crusading journalists to courageous campaigners Traversing dust blown deserts and majestic mountains taking in glitzy cities and dystopian landscapes Dark Shadows conjures up Kazakhstan as a living breathing place full of extraordinary people living extraordinary lives Asian Gross National Happiness and its View on Law, Human Rights and Sustainable Development Goals Dorine E. van Norren, 2025-04-27 This thorough account of wellbeing perspectives from Asian Buddhist Gross National Happiness sheds a new light on sustainability debates It puts into question the universality of the UN Sustainable Development Goals Its slogan Leave no one behind begs the question of who is behind and who is ahead Development is caught in the logic of linear sustainable growth of nations or centres around the flourishing of the individual instead of the community Respect all Sentient Beings is the Buddhist approach It centers around inner peace harmony generosity and compassion with all life With concrete examples of policies law jurisprudence and practice from Bhutan this book is a must read for philosophers willing to think beyond European philosophy development economists interested in reshaping today s paradigms innovative lawyers with a compassionate heart anthropologists who yearn for a dialogue between worldviews of the Global South and science and all people who seek new meaning in today s society **The Reawakening of the Arab World** Samir Amin, 2016-04 Previously published by Pambazuka Press in 2012 under the title of The People s Spring the Future of the Arab Revolution This edition contains a new chapter analyzing U S geo strategy **Contending Legitimacy in World Politics** Bronwyn Winter, Lucia Sorbera, 2018-10-19 Legitimacy along with security and democracy is arguably one of the most widely used global buzzwords of the new millennium Yet the idea of political legitimacy is not new and has been constructed in different ways at different moments in history This book problematizes this notion from various contextual standpoints disciplinary and theoretical perspectives Taking a comparative transnational and bottom up approach to the study of political legitimacy this book sheds light on multiple perceptions by different actors institutions civil society majoritarian and minority subjects analysing the notion of political legitimacy from a critical perspective Questioning received wisdom or one size fits all analyses it leads to a reassessment of the link between legitimacy and sovereignty and emphasises the demand by transnational civil society to go beyond identity politics which produce logics of violence This book was originally published as a special issue of Global Discourse **Inside the Middle East** Avi Melamed, 2022-02-08 Why Is the Middle East Entering a New Era Is It a New Dawn Is It a Setting Sun In the third decade of the twenty first century the Middle East is entering a new era A multifaceted and intricate equilibrium will write the next chapter of this region The new era we are entering is fraught with challenges and full of opportunities The new era is both defined by and a result of a combination of ancient and modern domestic regional and international processes Iran and Turkey each strive to position themselves as the regional superpower In parallel the people of the region struggle to overcome increasing domestic challenges These developments combined with an escalating struggle over path identity and direction could result in a new model of statehood in the Arab

Sister Bob Halliday, 2014-03-18 The Christian state church emerged from the religion of pagan Rome A declining western empire gave the church political power but provoked conflict between church and state In the Scottish post Reformation Stewart monarchy the king claimed to control the church by divine right Covenanters exchanged state control for a theocracy built on the idea that Scotland like Israel had a God given destiny As the purest kirk in Christendom nation and kirk were the political and religious faces of one body Like pre Christian Israel Scotland was one of the only two nations ever covenanted to the Lord This idea owed more to political pressure than theological insight Today a mindset survives which still refuses to separate kirk from nation and thereby undermines the missionary calling The urgent need is to recognize that God made a covenant with Israel alone and to think in terms of a second Israel was to misunderstand the development of church history Today s Kirk must see herself not as the representative of the Christian faith of the Scottish people to bring the ordinances of religion to the people in every parish of Scotland but as the representative of Christ with an apostolic mandate for evangelism **Community-Based Urban Violence Prevention** Kosta Math  y, Silvia Matuk, 2014-10-15 Urban violence has become a major threat in big cities of the world Where the orthodox protection through the police and individual target hardening remain inefficient the population must organize itself This book contains first hand accounts on a selection of the most innovative experiences in Africa Latin America Asia and the Arab region and is of interest likewise for academics and urban practitioners policy makers international cooperation experts or travelers preparing a visit of one of the affected countries With a preface by Caroline Moser

Attack of the Theocrats Sean Faircloth, 2014-07-01 At no time in history has the United States had such a high percentage of theocratic members of Congress those who expressly endorse religious bias in law Just as ominously especially for those who share the values and views of Thomas Jefferson and James Madison at no other time have religious fundamentalists effectively had veto power over one of the country s two major political parties As Sean Faircloth argues in this deeply sobering yet highly engaging book this has led to the crumbling of the country s most cherished founding principle the wall of separation between church and state While much of the public debate in the United

States over church state issues has focused on the construction of nativity scenes in town squares and the addition of under God to the Pledge of Allegiance former politician and lobbyist Faircloth moves beyond the symbolism to explore the many ways federal and state legal codes privilege religion in law He demonstrates in vivid detail how religious bias in law harms all Americans financially militarily physically socially and educationally and directs special attention to the outlandish words views and policy proposals of the most theocratic politicians Sounding a much needed alarm for all who care about the future direction of the country Faircloth concludes by offering an inspiring 10 point vision of an America returned to its secular roots and by providing a specific and sensible plan for realizing this vision

After Orientalism ,2014-11-27 The debate on Orientalism began some fifty years ago in the wake of decolonization While initially considered a turning point Edward Said's Orientalism 1978 was in fact part of a larger academic endeavor the political critique of colonial science that had already significantly impacted the humanities and social sciences In a recent attempt to broaden the debate the papers collected in this volume offered at various seminars and an international symposium held in Paris in 2010 2011 critically examine whether Orientalism as knowledge and as creative expression was in fact fundamentally subservient to Western domination By raising new issues the papers shift the focus from the center to the peripheries thus analyzing the impact on local societies of a major intellectual and institutional movement that necessarily changed not only their world but the ways in which they represented their world World history which assumes a plurality of perspectives leads us to observe that the Saidian critique applies to powers other than Western European ones three case studies are considered here the Ottoman Russian and Soviet and Chinese empires Other essays in this volume proceed to analyze how post independence states have made use of the tremendous accumulation of knowledge and representations inherited from previous colonial regimes for the sake of national identity as well as how scholars change and adapt what was once a hegemonic discourse for their own purposes What emerges is a new landscape in which to situate research on non Western cultures and societies and a road map leading readers beyond the restrictive dichotomy of a confrontation between West and East With contributions by Elisabeth All's L on Buskens St phane A Dudoignon Baudouin Dupret Edhem Eldem Olivier Herrenschmidt Nicholas S Hopkins Robert Irwin Mouldi Lahmar Sylvette Larzul Jean Gabriel Leturcq Jessica Marglin Claire Nicholas Emmanuelle Perrin Alain de Pommereau Fran ois Pouillon Zakaria Rhani Emmanuel Szurek Jean Claude Vatin Mercedes Volait

Globalization and Educational Rights Joel Spring,2014-04-08 This is the first book to explore the meaning of equality and freedom of education in a global context and their relationship to the universal right to education It also proposes evaluating school systems according to their achievement of equality and freedom Education in the 21st century is widely viewed as a necessary condition for the promotion of human welfare and thus identified as a basic human right Educational rights are included in many national constitutions written since the global spread of human rights ideas after World War II But as a global idea the meaning of educational rights varies between civilizations In this book which builds on the concept of

the universal right to education set forth in Spring's *The Universal Right to Education: Justification, Definition and Guidelines*. His intercivilizational analysis of educational rights focuses on four of the world's major civilizations: Confucian, Islamic, Western, and Hindu. Spring begins by considering educational rights as part of the global flow of ideas and the global culture of schooling. He also considers the tension this generates within different civilizational traditions. Next, he proceeds to examine the meaning of educational rights in the Confucian tradition in the recent history of China and in the Chinese Constitution; look at educational rights in the context of Islamic civilization and as presented in the constitutions of Islamic countries; including an analysis of the sharp contrast between the religious orientation of Islamic educational rights and those of China and the West; explore the problems created by the Western natural rights tradition and the eventual acceptance of educational rights as represented in European constitutions with a focus on the development and prominence given in the West to the relationship between schooling and equality of opportunity; and investigate the effect of global culture on India and the blend of Western and Hindu ideas in the Indian constitution, highlighting the obstacles to fulfillment of educational rights created by centuries of discrimination against women and lower castes. In his conclusion, Spring presents an educational rights statement based on his intercivilizational analysis and his examination of national constitutions. This statement is intended to serve as a model for the inclusion of educational rights in national constitutions. **With Intent to**

Maim; An Autobiographical Narrative Kalman Dubov, 2020-10-06 This book describes my experiences being subjected to and living with abuse during my childhood and early adult years in the Lubavitch Chabad community in Brooklyn, New York. I discuss the effects this physical, emotional, and psychological abuse had on my development and life, which resulted in my leaving this community and lifestyle. When I grew up in this community, the topic of abuse was either denied or spoken about in whispers. Generally, even if abuse of a child was known, it was not reported to law enforcement, and the child was not protected from further abuse. The topic of reporting such crimes to the law enforcement authorities for eventual criminal prosecution is referred to as *mosur*, a term of revilement. Such a person, regardless of the crimes committed, is protected by the Jewish community, and the victim is forced to face the abuse by himself or herself without the benefit of communal embrace for resolution. Moreover, Jewish law excoriates a *mosur* informer by exclusion from normative communal membership. These exclusions are embodied in codes of Jewish law which formalize the process by vilifying the informer. The victim thereby faces a double attack: The first is by the predator, and the second is by the code of silence forced upon the victim. The primary focus of this book regards the physical attack I endured at the hands of my mother. She was angered by my non-diligence in religious study, motivating her to try to break my arm. I was eight years old at the time. And she was following the actions of another mother who broke the arm of her son for the same perverse reason. This attack was a life-changing event. It forced me to identify my mother and others as persons who represented a great danger to me, necessitating measures that resulted in distance and eventual examination of the fundamentals of this religious life and identity. I describe the other Jewish family

that similarly abused a child Similar to my own circumstance no investigation or prosecution was ever conducted I remain convinced other families from these ultra Orthodox Charedi Jewish communities experienced similar or worse violence but such violence was muted and not reported My father was aware of the attack but did not intervene I discuss the details of the abuse as well as its aftermath and the larger concatenates these events caused in my life I conclude my narrative by stating that these acts and especially community refusal to acknowledge and respond is shameful and indefensible A few persons reviewed this material prior to publication While I remain grateful for their comments and recommendations the publication reflects my own insights and I remain responsible for any errors or oversights

Gender and Tourism Sustainability

Claudia Eger, Ana María Munar, Cathy H.C. Hsu, 2023-03-21 This book examines the relationship between gender and sustainability in tourism Whilst an extensive body of work exists in the areas of gender and sustainability these two fields of knowledge are seldom combined to examine tourism phenomena When we look at the evolution of tourism we see that sustainability has become an essential element in educational programmes policy making and strategic considerations for organisations and destinations Whilst the beginnings of tourism sustainability were challenging presently its relevance is seldom questioned However this situation is not the case with gender research Although gender theorising and research have existed for over a century and a rich legacy of knowledge exists on this topic meaningful and respectful engagement with this line of scholarship is thus far peripheral in tourism studies The aim of this book is to reflect on and rethink the intersection of gender and tourism sustainability through the lens of gender theory and feminist epistemology to stay with the trouble and devise pathways for sustainability gender knowledge This book will be of great interest to students researchers and academics in tourism gender and sustainability as well as tourism management The chapters in this book were originally published as a special issue of the Journal of Sustainable Tourism
