Practicum and Internship Judith Scott, John C. Boylan, Christin M. Jungers, 2013-07-04 Completely revised and updated the fourth edition of Practicum and Internship carries on the tradition of the previous editions as a popular and highly useful textbook and resource guide. It continues to be a comprehensive resource for students and their supervisors throughout the counseling and psychotherapy process providing thorough coverage of both the theoretical and practical aspects of the practicum and internship process. This text guides students through the important pre professional training experiences from the selection of an appropriate practicum site to the final evaluation of the internship. Organizing the content into four sections for clarity and ease of use, the authors discuss all the relevant information regarding the practicum experience, preparation for the internship, the internship experience and evaluation, and important ethical and legal considerations. New in this edition are a listing and description of the various counseling theories and techniques, a section on crisis intervention and response, detailed guidelines for school mental health consultation, and forms for evaluating performance, cognitive and consulting skills. Forms are provided at the end of the book for the student's use in site selection, assessment, client treatment, and performance feedback and evaluation. These forms are also included in electronic format on an accompanying CD to allow students to modify and reuse them.

Mom Minus Dad: The Essential Resource Guide for Busy Adults with a Newly Widowed Parent Jamieson Haverkamp, 2008-05-09 Mom Minus Dad is the only resource guide available with more than 500 resources for adults who lose a parent and need to assist a newly widowed parent. The book provides readers with practical advice on ten major parent loss topics along with more than 500 valuable and time saving resources including Web sites, companies, government resources, U.S. laws, books, and nonprofit organizations to assist the approximately twelve million sons and daughters who lose a parent every year. Each section provides online and book resources and simple practical solutions to common problems from finding affordable counseling to building new budgets for the widowed parent to managing changing family dynamics. Each chapter reveals ideas, relevant insights from the author's personal experience, questions to consider, and additional resources to find specific assistance. The author of Mom Minus Dad gleaned intimate knowledge of balancing her own life with a newly widowed parent. Ms. Haverkamp assisted her fifty six year old widowed mother in Virginia while still running her real estate business in California after the early unpredicted loss of her father to cancer. In her groundbreaking book, Haverkamp shares how she and her sister both in their early thirties found success and managed struggles during their journey after their father's death. This is a reference guide grievers will refer to during the year after loss and years beyond.
