Women, Art, and Architecture in Northern Italy, 1520-1580 Katherine A. McIver, 2017-09-29 Expanding interdisciplinary investigations into gender and material culture Katherine A. McIver here adds a new dimension to Renaissance patronage studies by considering domestic art the decoration of the domestic interior as opposed to patronage of the fine arts painting sculpture and architecture Taking a multidimensional approach McIver looks at women as collectors of precious material goods as organizers of the early modern home and as decorators of its interior By analyzing the inventories of women's possessions McIver considers the wide range of domestic objects that women owned such as painted and inlaid chests painted wall panels tapestries fine fabrics for wall and bed hangings and elaborate jewelry pendant earrings brooches garlands for the hair necklaces and rings as well as personal devotional objects Considering all forms of patronage opportunities open to women she evaluates their role in commissioning and utilizing works of art and architecture as a means of negotiating power in the court setting in the process offering fresh insights into their lives limitations and the possibilities open to them as patrons Using her subjects' financial records to track their sources of income and the circumstances under which it was spent McIver thereby also provides insights into issues of Renaissance women's economic rights and responsibilities The primary focus on the lives and patronage patterns of three relatively unknown women Laura Pallavicina Sanvitale Giacomina Pallavicina and Camilla Pallavicina provides a new model for understanding what women bought displayed collected and commissioned By moving beyond the traditional artistic centers of Florence Venice and Rome analyzing instead women's artistic patronage in the feudal courts around Parma and Piacenza during the sixteenth century McIver nuances our understanding of women's position and power both in and out of the home Carefully integrating extensive archival

Woman's Inhumanity to Woman Phyllis Chesler, 2009-05-01 Man's inhumanity to man the phrase is all too familiar But until Phyllis Chesler's now classic book a profound silence prevailed about woman's inhumanity to woman Women's aggression may not take the same form as men's but girls and women are indeed aggressive often indirectly and mainly toward one another They judge harshly hold grudges gossip exclude and disconnect from other women Like men

women are exposed to the messages of misogyny and sexism that permeate cultures worldwide Like men women unconsciously buy into negative images that can trigger abuse and mistreatment of other women But like other social victims many do not realize stereotyping affects members within the victimized group as well as those outside the group They do not realize their behavior reflects society's biases How women view and treat other women matters Are women oppressed Yes Do oppressed people internalize their oppressors attitudes Without a doubt Prejudice must first be acknowledged before it can be resisted or overcome More than men women depend upon one another for emotional intimacy and bonding and exclusionary and sexist behavior enforces female conformity and discourages independence and psychological growth Continuing the pioneering work begun in *Women and Madness* Chesler's bestselling book that broke the story on double standards in psychology *Woman's Inhumanity to Woman* draws on important studies revolutionary theories literature and hundreds of original interviews Chesler urges us to look within to treat other women realistically ethically and kindly and to forge bold and compassionate alliances This is a necessary next step for women without which they will never be liberated

Fertility Preservation in Asia Seido Takae,Nao Suzuki,Jung Ryeol Lee,2021-02-24 [Dressing Renaissance Florence](#) Carole Collier Frick,2005-07-20 As portraits private diaries and estate inventories make clear elite families of the Italian Renaissance were obsessed with fashion investing as much as forty percent of their fortunes on clothing In fact the most elaborate outfits of the period could cost more than a good sized farm out in the Mugello Yet despite its prominence in both daily life and the economy clothing has been largely overlooked in the rich historiography of Renaissance Italy In Dressing Renaissance Florence however Carole Collier Frick provides the first in depth study of the Renaissance fashion industry focusing on Florence a city founded on cloth a city of wool manufacturers finishers and merchants of silk dyers brocade weavers pearl dealers and goldsmiths From the artisans who designed and assembled the outfits to the families who amassed fabulous wardrobes Frick s wide ranging and innovative interdisciplinary history explores the social and political implications of clothing in Renaissance Italy s most style conscious city Frick begins with a detailed account of the industry itself its organization within the guild structure of the city the specialized work done by male and female workers of differing social status the materials used and their sources and the garments and accessories produced She then shows how the driving force behind the growth of the industry was the elite families of Florence who in order to maintain their social standing and family honor made continuous purchases of clothing whether for everyday use or special occasions for their families and households And she concludes with an analysis of the clothes themselves what pieces made up an outfit how outfits differed for men women and children and what colors fabrics and design elements were popular Further and perhaps more basically she asks how we know what we know about Renaissance fashion and looks to both Florence s sumptuary laws which defined what could be worn on the streets and the depiction of contemporary clothing in Florentine art for the answer For Florence s elite appearance and display were intimately bound up with self identity Dressing Renaissance Florence enables us to better understand the social and cultural milieu of Renaissance Italy
