The Believer's Brain Kenneth M. Heilman, Russell S. Donda, 2014-01-21 About 90% of people have faith in a supreme being but our yearning for the divine and whatever it promises involves a large divergence in mental states and behaviors Some adhere to doctrine supplication and fastidious religious practices others have a strong sense they are part of something greater and more universal However all religious and spiritual paths are mediated by complex brain networks When different areas of the brain are stimulated a person can have a variety of experiences but there is no specific God spot where stimulation enhances religiosity or spirituality Functional brain imaging shows that there are specific areas of the brain that light up when subjects perform certain religious activities but imaging only provides anatomic correlations not functional explanations The Believer's Brain takes a step beyond these singular methodologies providing converging evidence from a variety study methods of how humans brain networks mediate different aspects of religious and spiritual beliefs feelings actions and experiences Although the book reveals how our brain is the home to the religious and spiritual mind understanding this gift will not diminish our spirituality or our love or our belief in a supreme being but will increase appreciation of the apparatus that mediates these mental states *Automotive Merchandising*, 1923

Burning Center, Porous Borders Eleazar S. Fernandez, 2011-10-17 Burning Center Porous Borders articulates what the church is and is called to be about in the world a world now globalized to the point that the local is lived globally and the global is lived locally The church must respond creatively and prophetically to the challenges economic disparity war and terrorism diaspora ecological threat health crisis religious diversity and so on posed by our highly globalized world It can do so only if the church's spiritual center burns mightily Conversely it can burn mightily in the spirit of Christ only if its borders are porous and allows the fresh air spirit of change to blow in and out While there is much rhetoric about change the most common response to change is to continue doing business as usual This is particularly the case in the face of perceived global threats In spite of the hoopla and euphoria of the global village walls of division and exclusion are rising hearts are constricting and moral imagination shrinking In response to this context Burning Center Porous Borders proposes alternative ways or images of being a church burning center and porous borders wall buster and bridge builder translocal glocal mending healer radical hospitality community of the earth spirit household of life abundant dialogians of life and community of hope In Burning Center Porous Borders congregational vitality and progressive praxis kiss and embrace *Reclaiming Conversation* Sherry Turkle, 2016-10-04 Turkle presents a powerful case that a new communication revolution is degrading the quality of human relationships The New York Review of Books Turkle's witty well written book offers much to ponder Talk is cheap but conversation is priceless Boston Globe This is a persuasive and intimate book Washington Post Renowned

media scholar Sherry Turkle investigates how a flight from conversation undermines our relationships creativity and productivity and why reclaiming face to face conversation can help us regain lost ground We live in a technological universe in which we are always communicating And yet we have sacrificed conversation for mere connection Preeminent author and researcher Sherry Turkle has been studying digital culture for over thirty years Long an enthusiast for its possibilities here she investigates a troubling consequence at work at home in politics and in love we find ways around conversation tempted by the possibilities of a text or an email in which we don t have to look listen or reveal ourselves We develop a taste for what mere connection offers The dinner table falls silent as children compete with phones for their parents attention Friends learn strategies to keep conversations going when only a few people are looking up from their phones At work we retreat to our screens although it is conversation at the water cooler that increases not only productivity but commitment to work Online we only want to share opinions that our followers will agree with a politics that shies away from the real conflicts and solutions of the public square The case for conversation begins with the necessary conversations of solitude and self reflection They are endangered these days always connected we see loneliness as a problem that technology should solve Afraid of being alone we rely on other people to give us a sense of ourselves and our capacity for empathy and relationship suffers We see the costs of the flight from conversation everywhere conversation is the cornerstone for democracy and in business it is good for the bottom line In the private sphere it builds empathy friendship love learning and productivity But there is good news we are resilient Conversation cures Based on five years of research and interviews in homes schools and the workplace Turkle argues that we have come to a better understanding of where our technology can and cannot take us and that the time is right to reclaim conversation The most human and humanizing thing that we do The virtues of person to person conversation are timeless and our most basic technology talk responds to our modern challenges We have everything we need to start we have each other Turkle s latest book The Empathy Diaries is available now

Living in the House of God Margaret Malone, 2014-11-21 How should we live in this house of God We know that the way a building is shaped also helps in determining the way those within it live and relate We are indeed

formed by what we form Qualities such as integrity hospitality humanity and beauty in a place will enable its dwellers to live lives in which such qualities are evident The way we understand who we are and how we live will be reflected in our places and vice versa Our places become bearers of meaning and memory From Chapter 1 In *Living in the House of God* Margaret Malone draws on her study of and research on the Rule of Saint Benedict to show the ways in which this ancient rule can illuminate modern life The broad gamut of topics this book examines from Benedictine life as sacrament to Augustine's influence on Benedict to obedience and the art of listening among others is itself a witness to the generous flexibility of the Rule as Benedict proposes a way of life that truly corresponds to the deepest needs of the whole of human nature
