investigating and identifying the phenomena with an analysis of the best places to go looking methods of contacting the spirit world how to explain paranormal activity and crucially how to survive the encounter However it is also a book about ghost hunting itself drawing on 130 years of research in the cavernous archives of the Society for Psychical Research and even older history to find the earliest ghost stories A Ghost Hunting Survey makes use of interviews with those billing themselves as ghost hunters to find out their views motivations and experiences New and original research makes use of statistics to map the nebulous world of apparitions while a Preliminary Survey of Hauntings offers an analysis of 923 reported phenomena from 263 locations across the UK This is as far as possible an objective presentation of ghosts and ghost hunting It is no wonder that mainstream science largely refuses to deal with the subject it is too complicated Without trying to convince you of any viewpoint this book is intended to help you understand more *7 Best Short Stories by Charlotte Riddell* Charlotte Riddell, 2019-05-30 Charlotte Riddell was one of the first women to write fiction about London City life and the world of business She also wrote children s stories tales of her native Ireland and supernatural tales In this book you will find seven short stories specially selected by the critic August Nemo A Strange Christmas Story Walnut Tree House The Open Door Nut Bush Farm The Old House in Vauxhall Walk Sandy the Tinker Old Mrs Jones **Best Short Stories Omnibus - Volume 3** Sheridan le Fanu, H. and E.
