Hitchcocks Cryptonymies Tom Cohen, 2005 Tom Cohen's radical exploration of Hitchcock's cinema departs from conventional approaches psychoanalytic feminist political to emphasize the dense web of signatures and markings inscribed on and around his films Aligning Hitchcock's agenda with the philosophical and aesthetic writings of Nietzsche Derrida and Benjamin Cohen's project dramatically recasts the history and meaning of cinema itself This first volume of Hitchcock's Cryptonymies provides a singularly close reading of films such as *The Lady Vanishes* *Spellbound* and *North by Northwest* exposing the often imperceptible visual and aural puns graphic

elements and cryptograms that traverse his entire body of work Within Hitchcock's cinema Cohen argues these secret agents have more than just decorative or symbolic significance they also reflect critique and disrupt traditional cinematic practice undermining ways of seeing inherited from the Enlightenment and prefiguring postmodern culture From the recurrence of the eye motif and the frequency of names beginning with Mar to the role of memory and the director's trademark cameos Cohen offers an unprecedented guide to the entirety of Hitchcock's labyrinthine signature system At the same time he liberates Hitchcock's works from film history modernist auteurist revealing them as unsettled events in the archaeology of contemporary global image culture Tom Cohen is professor of American literary critical and cinematic studies at the University at Albany He is the author of *Anti Mimesis From Plato to Hitchcock* and *Ideology and Inscription Cultural Studies* after Benjamin and coeditor of *Material Events* Minnesota 2000 Publisher
