Your employees and team members are an integral part of your operation. They reflect on your company and your reputation. Having your team properly and consistently trained and armed with the appropriate reference materials ensures they do the best job possible. To this end, every manager knows that a good training manual is an indispensable tool.

The use of a training manual improves the success of your program by ensuring consistent presentation of material and by acting as a post-training reference. During a training session, the use of a manual frees up trainees to listen to the trainer and focus on the information without having to take notes. After the training is over, keeping the training manual on hand makes sure tasks are performed correctly and with consistency. And it's not just employees and team members who benefit from a good training manual. You may sell a product or software for which a user guide is simply not enough. In that case you will want to provide your customers with a training manual and possibly even a formal training session so that they can derive the full and lasting benefit from the product you have provided them.

Crystal Code will provide your organisation with quality training manuals which can be used during training and as reference materials in the long term. Our writers will properly analyze the audience and its training needs and design an appropriate training manual in accordance with your organisation's objectives. Keep in mind – your training manual will not be written by a professional writer by trade. Instead, Crystal Code uses qualified trades people who know your industry and operations.
