Rhythm Section

The SX6500's rhythm section provides a rich accompaniment with 800 pattern variations containing up to 16 parts each.

These accompaniments are the result of extensive research & development by engineers and musicians to produce a rich musical backing arrangement from even the simplest of chord progressions. You can also create and store 20 of your own patterns in the custom rhythm group and use them just like the preset rhythms, or load new patterns from optional music software on floppy disk.

Custom Rhythm Screen

It also allows you to personalize and place your favorite sounds, rhythms, styles, and tempo shortcuts into one of four "favorites" pages for future recall.
